NewSun is a Delaware limited liability company that owns current and prospective solar and storage projects under development for power sales to Oregon utilities, both projects that are qualifying facilities (QFs) under the Public Utility Regulatory Policies Act (PURPA) and projects that are not.

NewSun has special knowledge or expertise that may assist the Commission in resolving the issues in this proceeding. NewSun's interest in this proceeding is focused on the issues surrounding resource adequacy. These outcomes could have a direct impact on NewSun's business. NewSun has participated in other regulatory dockets before the Commission including in integrated resource plans, requests for proposals, PURPA avoided cost dockets, the Commission's generic capacity valuation docket and others. NewSun intends to monitor the proceeding and, if necessary, raise issues and submit comments or testimony appropriate to the proceeding. NewSun's interests are not adequately represented by any other party, and its participation will assist the Commission in resolving issues.

Based on the information provided above in compliance with the Commission's rules of procedures, NewSun requests approval to participate in these proceedings as an intervenor. NewSun's participation in this docket will not unreasonably broaden the issues, burden the record, or unreasonably delay this proceeding.
