

**PUBLIC UTILITY COMMISSION OF OREGON
INTEROFFICE CORRESPONDENCE**

DATE: November 9, 2021

TO: File through Roger White

FROM: Laurel Anderson

SUBJECT: **Canby Telephone Association, Docket No ADV 1320/Advice Letter No. 24 Revises tariff PUC Or. No. 3 Access Services, modifies and standardizes pricing among the company's existing Ethernet Transport Service offering capacities.**

I have reviewed this filing and recommend that an acknowledgement letter be sent. The filing was submitted on October 12, 2021 and will go into effect on November 11, 2021.

This filing is being made to modify and standardize pricing amongst Canby's existing Ethernet Transport Service offerings. The rate changes are predominately reductions for different levels of service, however there are a few instances where a rate is slightly increased. Additionally, this filing introduces new 2-Gigabyte-thru-10-Gigabit Ethernet Transport Capacity options in 1 Gigabit increments for Month-to-Month, 3-Year Term, and 5-Year Term service terms. These new pricing and capacity options will afford customers the opportunity to purchase Ethernet Services at higher speeds.

Other than noted above, this filing will not increase any rate or charge, cause the withdrawal of service, or conflict with other schedules. This filing is revenue neutral for these Companies.

It is requested that this filing become effective November 11, 2021.
