OF OREGON**

UM 2277

In the Matter of)	
)	
AVISTA CORPORATION, dba)	STIPULATED AGREEMENT
AVISTA UTILITIES,)	
)	
Petition Requesting)	
Authority to Revise Its Book Depreciation)	
<u>Rates and Deferred Accounting</u>)	

This Stipulation is entered into for the purpose of implementing Avista Corporation’s (Avista or the Company) book depreciation rates for Oregon direct plant effective January 1, 2024, and for common plant that is allocated to Oregon coincident with the change in depreciation rates of common plant in Washington and Idaho jurisdictions. The Company initially requested an implementation date of September 1, 2023, for common plant with deferral of the depreciation expense difference between expense calculated using the current depreciation rates and the updated depreciation rates. The Stipulating Parties agreed to no changes to the proposed depreciation rates for common plant; however, if common plant depreciation rates are proposed to be changed in either Idaho or Washington, the Company will work with the Stipulating Parties to revisit the depreciation rates for common plant. In any event, the common plant depreciation rates will be implemented when approved in all three jurisdictions, with deferral of the impact to depreciation expense for the months the new depreciation rates were not implemented.

PARTIES

The Parties to this Stipulation are Avista, the Staff of the Public Utility Commission of Oregon (Staff), and the Alliance of Western Energy Consumers (AWEC), (collectively the “Stipulating Parties”), representing all parties to this proceeding as of the date of this Stipulation.

BACKGROUND

1. On February 21, 2023, Avista filed a petition requesting authority to revise its book depreciation rates and a proposal for deferral of the effects of changes in depreciation rates once those rates are approved by the Commission, pursuant to OAR 860-027-0350, which requires each energy utility to file with the Commission an updated depreciation study at least once every five years, and ORS 757.140, which requires each public utility to carry a proper and adequate depreciation account, and to conform its depreciation accounts to the rates so ascertained and determined by the Commission. The Commission may make changes in such rates of depreciation from time to time as the Commission may find necessary.

2. The objective of this Study was to recommend depreciation rates to be utilized by Avista for accounting and ratemaking purposes. Further, sound accounting practice dictates periodic updates to depreciation rates to recognize additions to investment in plant assets and to reflect changes in asset characteristics, technology, salvage, removal costs, life span estimates and other factors that impact depreciation rate calculations. The depreciation rates approved by the Commission in 2019 were developed from a study based on depreciable plant balances as of December 31, 2016. Similar to these preceding studies, the annual accrual rates proposed in this filing were primarily calculated in accordance with the straight-line method of depreciation, using

the average service life procedures and the remaining life basis, based on estimates which reflect considerations of historical evidence and expected future conditions.

3. In this depreciation study, depreciation rates were derived from two depreciation parameters: (1) the combination of Survival Curve¹ and Projection Life (Curve-Life), and (2) Net Salvage Rates.² The Curve-Life parameter is the combination of Survivor Curve Type with Dispersion Indicator and Projection Life.

4. The Company requested authorization to revise its book depreciation rates consistent with the results of a depreciation study recently undertaken by the Company.³ That study showed that the annual depreciation expense recorded on the Company's books should be increased by approximately \$762,252 (Oregon share) based on the average service life rates of natural gas plant in service as of December 31, 2021, that is directly assigned and allocated to Oregon.⁴

5. National Association of Regulatory Utility Commissioners (NARUC) in Depreciation Expense And Its Effect On The Utility's Financial Performance - Revenue Requirements⁵, states: "Depreciation has a profound effect on the revenue requirement of a utility, and for many utilities, depreciation expense represents a large percentage of total operating expenses. In addition, deferred income taxes, rate base, and cost of capital are all affected by the depreciation practices of a utility." The Company requested that the Commission make its determination on depreciation rates by August 31, 2023, to implement the Oregon direct plant

¹ "Survivor curves" means a curve that shows the number of units or cost of a given group which is surviving in service at given ages. The survivor curves were developed by the Engineering Research Institute of Iowa State University. These curves are frequently referred to as "Iowa Curves."

² Net salvage is the difference between gross salvage and cost of removal. Net salvage is positive when gross salvage exceeds the cost of removal and reduces the revenue requirement. Conversely, net salvage is negative when cost of removal exceeds gross salvage and increases the revenue requirement.

³ Avista hired Gannett Fleming, Inc. to undertake a depreciation study of its depreciable electric, gas and common plant in service. The study was completed in 2022. The objective of this assignment was to recommend depreciation rates to be utilized by Avista for accounting and ratemaking purposes.

⁴ The Company had also proposed to amortize a reserve adjustment over 5 years. The annual amortization of this reserve adjustment was a reduction to depreciation expense of \$277,672.

⁵ NARUC, Public Utility Depreciation Practices, p.195 (1996).

depreciation rates effective January 1, 2024, to coincide with the update to customers' rates from the Company's 2023 general rate case filed March 1, 2023 in Docket No. UG-461. Due to timing of the changes to common plant depreciations rates with the Company's other jurisdictions, the Company also requested for common plant that the difference between depreciation expense under current book depreciation rates and depreciation expense under the updated depreciation rates, be deferred for later recovery from customers in a subsequent rate proceeding.

6. Avista is a utility that also provides service to electric and natural gas customers in eastern Washington and northern Idaho, in addition to its natural gas customers in Oregon. The Company also filed depreciation studies in its other jurisdictions under Docket Nos. UE-230123 and UG-230130 in Washington and Docket Nos. AVU-E-23-02 and AVU-G-23-02 in Idaho. These cases are still being reviewed in those jurisdictions.

7. The Stipulating Parties recognized the need for sufficient time for Staff and interested Parties to complete their review of the Company's depreciation study, and for the Commission to consider this Stipulation. This Stipulation provides for implementation of new Oregon direct plant depreciation rates for accounting purposes effective January 1, 2024, and for common plant to become effective when Washington's and Idaho's common plant depreciation rates become effective.

8. Approval of this Stipulation would provide for the opportunity to simultaneously implement new depreciation rates for accounting purposes for common plant in all three jurisdictions in which Avista serves: Oregon, Washington, and Idaho. Allowing Oregon common depreciation rate changes to be effective for accounting purposes at the same time as the other two jurisdictions will synchronize the timing of the Company's common depreciation accounting changes for the three states and alleviate the administrative burden.

9. On May 25, 2023, a settlement conference was held and attended by the Stipulating Parties. At that settlement conference, the Stipulating Parties reached agreement on revisions to the Company's book depreciation rates. The Company requested a \$762,252 depreciation increase, Parties settled at an \$84,081 depreciation increase, a reduction of \$678,171 from that proposed by the Company. If ultimately approved by the Commission, such rates would constitute depreciation rates, which would be effective for accounting purposes on January 1, 2024, for Oregon direct plant.

AGREEMENT

10. This Stipulation resolves all issues regarding the changes to the Company's depreciation rates proposed in the Depreciation Study.

11. The Stipulating Parties agree that this Stipulation provides for the implementation of updated depreciation rates for accounting purposes only and does not provide for adjustments to customer rates. As noted above, Avista used the depreciation rates proposed in the Study in the current general rate case before this Commission. Avista agrees to update the depreciation rates agreed to in this Stipulation, if approved by the Commission, as the basis for its depreciation rates in the Company's current general rate case proceeding before this Commission and will ultimately be included in customer's rates through that proceeding.

12. The Stipulating Parties have agreed to book depreciation rates on directly assigned (Oregon) plant effective January 1, 2024, and common plant when effective in all three jurisdictions. The Parties to this Agreement have agreed to the depreciation rates, as shown in Attachment A - System Summary to this Stipulation. That attachment provides detail of all plant accounts reviewed in the Study, which has been updated for changes agreed to by the Stipulating Parties in Oregon, with Summary of Estimated Survivor Curve, Net Salvage Percent, Original

Cost, Book Depreciation Reserve and Calculated Annual Depreciation Accruals Related To Electric, Gas and Common Plant as of December 31, 2021. The Company has also provided the data used to calculate the depreciation rates as originally filed and as settled in Attachment B - Adjustment Parameter Comparison for plant assigned or allocated to Oregon and Attachment C - Dollar Impact on Depreciation Expense.

13. The Stipulating Parties agree to the reserve adjustments that the Company proposed in the filed case. To achieve a more stable accrual for certain general plant accounts in the future, the Study recommended a five-year amortization to adjust unrecovered or over-recovered reserves based on the amortization period by account. For Oregon, the reserve adjustment is a reduction to expenses of \$277,672 annually for five years. The result of the agreed-upon depreciation/amortization rates is an overall decrease of approximately \$193,591 to depreciation expense based upon plant balances at December 31, 2021.

14. The Stipulating Parties agree, as required by OAR 860-027-0350, the Company will file a new depreciation study within five years of the original filing date in this application.

15. The Stipulating Parties agree that this Stipulation is in the public interest and results in an overall fair, just and reasonable outcome.

16. The Stipulating Parties agree this Stipulation represents a compromise in the positions of the Parties. By entering into this Stipulation, no Party shall be deemed to have approved, admitted, or consented to the facts, principles, methods, or theories employed by any other Party in arriving at the terms of this Stipulation other than as specifically identified in this Stipulation. No Party shall be deemed to have agreed that any provision of this Stipulation is appropriate for resolving the issues in any other proceeding.

17. The Stipulating Parties agree that, consistent with OAR 860-001-0350(3), conduct, statements, and documents disclosed in the negotiation of this Stipulation shall not be admissible as evidence in this or any other proceeding unless independently discoverable or offered for other purposes allowed under ORS 40.190.

18. This Stipulation sets forth the entire agreement between the Stipulating Parties and supersedes any and all prior communications, understandings, or agreements, oral or written, between the Parties pertaining to the subject matter of this Stipulation.

19. This Stipulation will be offered into the record in this proceeding as evidence pursuant to OAR 860-001-0350(7). The Stipulating Parties agree to support this Stipulation throughout this proceeding and any appeal. The Stipulating Parties further agree to provide witnesses to sponsor this Stipulation in testimony, briefing and at the hearing, or, in a Party's discretion, to provide a representative at the hearing authorized to respond to the Commission's questions on the Party's position as may be appropriate.

20. If this Stipulation is challenged, the Stipulating Parties reserve the right to cross-examine witnesses and put on such case as they deem appropriate to respond fully to the issues presented, including the right to raise issues that are incorporated in the settlement embodied in this Stipulation. Notwithstanding this reservation of rights, the Stipulating Parties agree that they will continue to support the Commission's adoption of the terms of this Stipulation.

21. The Stipulating Parties have negotiated this Stipulation, including its attachments, as an integrated document. If the Commission rejects all or any material part of this Stipulation or imposes additional material conditions in approving the Stipulation, any Party disadvantaged by such action shall have the right to withdraw from this Stipulation, pursue their rights under OAR 860-001-0350(9), and/or seek reconsideration or appeal of the Commission's order in

accordance with OAR 860-001-0720. However, prior to withdrawal, the Party shall engage in good faith negotiation with the other Stipulating Parties. No Party withdrawing from this Stipulation shall be bound to any position, commitment, or condition of this Stipulation. In the event any Party withdraws from the Stipulation, then no part of the Stipulation may be offered or admitted into evidence in any proceeding. This Stipulation may be executed in counterparts and each signed counterpart shall constitute an original document. The Stipulating Parties further agree that any electronic signature of a Party is valid and binding to the same extent as an original signature.

22. This Stipulation may not be modified or amended except by written agreement among all Parties who have executed it.

This Stipulation is entered into by each Party on the date entered below such Party's signature.

Settlement Depreciation Tables

1. The Company's original filing had proposed an increase to depreciation and amortization expense of \$484,580, as shown in Table No. 1.

Table No. 1 – Change to Depreciation Expense - As Filed

Change to Depreciation Expense - As Filed			
	Oregon Direct Plant	Oregon Share Common Plant	Total
General Plant	37,822	32,478	70,300
Underground Storage Plant	8,450	-	8,450
Gas Distribution Plant	730,844	-	730,844
Transportation Plant	(41,236)	(6,106)	(47,342)
Subtotal	735,880	26,372	762,252
Reserve Adjustment Amortization	(81,583)	(196,089)	(277,672)
	654,297	(169,717)	484,580

The Settling Parties agreed to a reduction in depreciation and amortization expense of \$193,591, as shown in Table No. 2.

Table No. 2 – Change to Depreciation Expense - As Settled

Change to Depreciation Expense - As Settled			
	Oregon Direct Plant	Oregon Share Common Plant	Total
General Plant	37,822	32,478	70,300
Underground Storage Plant	3,683	-	3,683
Gas Distribution Plant	57,440	-	57,440
Transportation Plant	(41,236)	(6,106)	(47,342)
Subtotal	57,709	26,372	84,081
Reserve Adjustment Amortization	(81,583)	(196,089)	(277,672)
	(23,874)	(169,717)	(193,591)

The change from the filed case increase in depreciation/amortization expense of \$484,580 to a reduction of \$193,591 in the settled amount, is a net reduction of \$678,171 from the filed case. The accounts that the Parties agreed to update in the settlement are shown in Table No. 3.

Settlement Depreciation Tables

Table No. 3 – Change to Depreciation Expense By Account

FERC	Plant Description	Filed			Settled			Filed	Settled	Change
		Curve	Salvage	Depreciation Rate	Curve	Salvage	Depreciation Rate	Expense	Expense	
Underground Storage Equipment										
352	Storage Wells	60-R4	0	1.73%	65-R2.5	0	1.55%	\$ 24,801	\$ 22,140	\$ (2,661)
354	Compressor Station Equipment	55-R4	0	1.83%	55-R2	0	1.76%	\$ 59,068	\$ 56,962	\$ (2,106)
