Regarding: ADV 1502/Advice 23-04, NW Natural revising Smart Energy to include Renewable Natural Gas

Dear Commissioners,

I am Noble Deckard, a customer of NWN and want to express my support for the above Docket/proposal. I do feel that it is important to have more opportunity and or flexibility in addressing climate related issues.

I do think that it is very important that this update to the program will create an opportunity of additional carbon mitigation resource in this established program.

I do thank you for your consideration in adopting the proposal from NWN.

Sincerely,
Noble Deckard
