5.4.11 HUNTING SERVICE [1]

A. Description

This is an optional arrangement available to customers with two or more individual line or trunk services. Where facilities permit, such lines/trunks will be arranged so that incoming calls to a busy line/trunk will overflow to other available lines/trunks for that customer.

Hunting Service is offered in two categories:

Series Completion Service

Permits calls to a busy telephone number to be routed to another telephone number in the same switching office. More than one telephone number can be routed to the same telephone number.

Multiline Hunt Service [2]

(C)

Permits calls to a busy telephone number to be routed to other specified lines that do not require a telephone number. Hunting is done sequentially by terminal within the group. A line is associated with each terminal in the group.

[1] Effective June 1, 2023, Hunting Service is grandfathered for residence customers and will no longer be available to new residence customers.

[2] **Effective September 5, 2023, Multiline Hunt Service is grandfathered for small business customers and will no longer be available to new small business customers.**

C. Optional Features

Circular Hunting [2] (C)

Circular Hunt is an option of Hunting Service that allows for hunting to start at the dialed number and continues in ascending order to the last number in the hunt group. Hunting then proceeds to the first number of the hunt group and continues through the group until an idle line is reached or the number just preceding the dialed number is reached.

Make Busy [2] (C)

This feature provides a method for making lines appear busy to the serving central office. The feature is activated by operation of customer provided dedicated keys at the customer's premises which in turn provides a busy appearance to the central office for a predetermined line or group of lines. The caller does not receive busy tone unless all numbers in the hunt sequence are found busy. Make Busy is available on an individual line, a terminal or group of terminals or an entire hunt group. Make Busy is available on series or on multiline hunt groups. Outgoing calls are not affected by this option.

Stop-Hunt [2] (C)

Stop-hunt allows the customer to stop the hunt sequence of specific lines/terminals in a hunt group by the operation of a customer-provided key at the customer's premise. Hunting will proceed until it reaches an idle line/terminal or a line/terminal associated with an active stop-hunt key. Outgoing calls are not affected by this option. Stop Hunt is available on multiline hunt groups only.

[1] Effective June 1, 2023, Hunting Service is grandfathered for residence customers and will no longer be available to new residence customers.

[2] **Effective September 5, 2023, this service is grandfathered for small business customers and will no longer be available to new small business customers.** (N)
