## ADV 1539 Second Workshop Announcement

This announcement provides information about the second workshop to discuss legal interpretations relevant to ADV 1539.

### Background

On November 20, 2023, Staff held a workshop and stakeholders to discuss the Company's proposed changes to Oregon Schedule 84, which is the subject of ADV 1539. In the leadup to the workshop, Staff and the Company determined that it would be more appropriate to discuss matters of legal interpretation of ORS 757.300 in a separate workshop and instead focus the first workshop on the overall structure of Idaho Power's proposed changes in ADV 1539 as well as in Idaho Power's proposed changes in their Idaho service territory. At the end of the first workshop and in the following days, Staff coordinated with Idaho Power and stakeholders to find a time that works to further discuss the legal interpretation of ORS 757.300. It was determined that **December 6, 1pm-2pm** was available for Staff, Idaho Power, Oregon Solar + Storage Industries Association, and Citizens Utility Board. Other stakeholders or members of the public are also welcome to attend.

Virtual meeting information is included at the end of this schedule announcement.
