We may, at our option, redeem the Notes, in whole at any time, or in part from time to time, prior to the maturity date, as follows:

- Prior to September 1, 2044, at a redemption price equal to the greater of:
  - 100% of the principal amount of the Notes to be redeemed, and
  - as determined by an Independent Investment Banker, the sum of the present values of the remaining scheduled payments of principal on the Notes to be redeemed and interest thereon (not including any portion of payments of interest accrued as of the date fixed for redemption), discounted to the date fixed for redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below), plus 15 basis points,
- On or after September 1, 2044, at a redemption price equal to 100% of the principal amount of the Notes to be redeemed,

plus in any case interest accrued and unpaid on the principal amount of the Notes to be redeemed to the date fixed for redemption.

We will mail notice of any redemption at least 30 days before the date fixed for redemption to each registered holder of the Notes to be redeemed.

“Treasury Rate” means, with respect to any date fixed for redemption, the rate per annum equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such date.

“Comparable Treasury Issue” means the United States Treasury security selected by an Independent Investment Banker as having a maturity comparable to the remaining term of the Notes to be redeemed that would be used at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the Notes to be redeemed.

“Comparable Treasury Price” means, with respect to any date fixed for redemption, (a) the average of the Reference Treasury Dealer Quotations for such date, after excluding the highest and lowest such Reference Treasury Dealer Quotations for such date, or (b) if the Corporate Trustee obtains fewer than four such Reference Treasury Dealer Quotations, the average of all the quotations received.

“Independent Investment Banker” means any one of the Reference Treasury Dealers that we may appoint.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any date fixed for redemption, the average, as determined by the corporate trustee, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the corporate trustee by such Reference Treasury Dealer at 5:00 p.m. New York City time on the third business day preceding the date fixed for redemption.

“Reference Treasury Dealer” means (1) each of J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and a Primary Treasury Dealer (as defined below) selected by Wells Fargo Securities, LLC, and their respective successors, unless any of them ceases to be a primary U.S. Government securities dealer in New York City (a “Primary Treasury Dealer”), in which case we will substitute another Primary Treasury Dealer and (2) any other Primary Treasury Dealers that we may select.

**Supplemental Plan of Distribution and Terms Agreement:**

Any Notes sold by the purchasers to securities dealers may be sold at a discount from the initial price to the public of up to 0.50% of the principal amount of the Notes. Any such securities dealers may resell any Notes purchased from the purchasers to certain other brokers or dealers at a discount from the initial price to the public of up to 0.25% of the principal amount of the Notes. We will make interest payments on the Notes on March 1 and September 1 of each year, commencing September 1, 2015, and at maturity. The record date for the March 1 payment of interest will be February 15 and the record date for the September 1 payment of interest will be August 15.

**Use of Proceeds:**

The purchasers will pay the proceeds from the sale of the Notes, net of the purchasers' discount, to us in immediately available funds. After our receipt of these proceeds, the Notes will be credited to the purchasers' accounts at The Depository Trust Company free of payment.

We estimate that we will receive net proceeds from the sale of the Notes of approximately \$245.9 million, after deducting all applicable discounts, including the purchasers' discount and discounted price to the public, and estimated offering expenses. The expenses of the sale of the Notes, not including discounts, are estimated at \$510,000 and are payable by us. We anticipate using the net proceeds from the sale of the Notes to pay at or prior to maturity our \$120 million 6.025% first mortgage bonds due July 2018 and to fund a portion of our capital requirements. If we do not use the proceeds immediately, we will temporarily invest them in short-term investments.

**Legal Matters:**

Rex Blackburn, our Senior Vice President and General Counsel, and Perkins Coie LLP, Seattle, Washington, will pass upon the validity of the Notes and other legal matters for us. Sullivan & Cromwell LLP, New York, New York, will pass upon the validity of the Notes for the purchasers listed under “Supplemental Plan of Distribution and Terms Agreement.” As of February 24, 2015, Mr. Blackburn beneficially owned 31,296.483 shares of IDACORP, Inc. common stock. Mr. Blackburn is acquiring additional shares of IDACORP, Inc. common stock at regular intervals through employee stock plans.
