RE: Advice No. 2021-003-PL for Qwest Corporation d/b/a CenturyLink QC Price List

Dear Commissioners:

Attached for electronic filing are the following revisions to the Qwest Corporation d/b/a CenturyLink QC Price List. The following revisions are being submitted with a proposed effective date of June 1, 2021.

| <u>Section</u> | <u>Page</u> | <u>Revision</u> |
|----------------|-------------|-----------------|
| 5 | 38 | 1st |

This filing adds language pursuant to 47 C.F.R § 9.16(b)(3), pertaining to Ray Baum's Act. Specifically, these revisions document the requirements that multiline telephone systems and fixed and non-fixed voice services must be capable of conveying the dispatchable location of a 911 caller to a public safety answering point (PSAP). In recognition of customer obligations related to Ray Baum's Act, these revisions include indemnification provisions to which customers connecting MLTS to Company facilities and/or providing fixed or non-fixed services must adhere. Business customers have been notified of these changes.

If you have any questions regarding this filing, please contact me at (913) 884-1131.

Sincerely,

A handwritten signature in cursive script that reads "Robyn Crichton".

FOURTH EDITION

SECTION 5
1st Revised Sheet 38
Cancels Original Sheet 38

5. EXCHANGE SERVICES

5.3 PRIVATE BRANCH EXCHANGE (PBX) TRUNKS (Cont'd)

5.3.4 DIRECT-INWARD-DIALING (DID) SERVICE

DID subscribers may need to purchase additional features or services to comply with the dispatchable location provisions of RAY BAUM's Act, as described in Section 2.5.1.B. of the Qwest Corporation d/b/a CenturyLink QC P.U.C. Oregon No. 33 Exchange and Network Services Tariff.

(N)

(N)

A. Description

DID Service is a special trunking arrangement which permits incoming calls from the exchange network to reach a specific PBX station directly without an attendant's assistance.

B. Terms and Conditions

1. *DID* Service is available from electronic switching system central offices where equipment and operating conditions permit. The service provides PBX station users the ability to receive calls from outside the PBX without the assistance of the attendant. Customers will be required to maintain an adequate number of trunks with *DID* Service in order to prevent network degradation.
2. In addition to the following charges and rates, appropriate charges are applicable from 5.2 of the Exchange and Network Services Tariff or 5.3, preceding, to the establishment or rearrangement of trunks and stations in connection with providing *DID* Service.
3. All trunks in a trunk group serving *DID* station lines must be equipped for *DID* Service. Trunks serving non-*DID* station lines and trunks used for outward-only service from all station lines do not need to be equipped for *DID* Service.
4. The assignment of telephone numbers and the sequence of the numbers assigned to a *DID* Service is made at the discretion of the Company. Where the equipment configuration requires the assignment of blocks of telephone numbers, charges and rates following are applicable for each unused number in the block of telephone numbers assigned.
5. Sequential numbers may be assigned if blocks of numbers are available and at the discretion of the Company.

A *DID* sequential number block is a group of twenty telephone numbers in numeric order. The last digit of the first number within the block is a zero, and the last number within the number block must include an odd number in the sixth digit and a nine in the last digit.
