Dear Ms. Grindeland:

2nd Revised Sheet No. 222	
2nd Revised Sheet No. 234	
Original Sheet No. 234.1	
Original Sheet No. 274.1	6

This filing is being made to introduce Interoffice Transport, reduce two (2) rate elements, and file Mt. Angel's concurrence for Ethernet Transport Service. Canby Telephone Association is introducing Interoffice Transport as an optional service offering for Ethernet Transport. This new service element will enable adjacent telephone companies to connect to Canby for transport to the Pittock Block and allow for greater flexibility for other telephone companies to offer Ethernet Transport Service. In addition, Canby is requesting to reduce ETS Local Loop rates for 500 Mbps and 1 Gig. Lastly, Mt. Angel Telephone Company requests to concur in the rates developed by Canby for Ethernet Transport Services.

Canby Telephone Association respectfully requests that this filing become effective May 4, 2015.

Please date stamp a copy of this transmittal and return it to us for our records.

ACCESS SERVICES

11. **ADVANCED COMMUNICATIONS SERVICES** (Continued)

11.2 Ethernet Transport Service (ETS) (Continued)

11.2.2 General Information, Terms, and Obligations (Continued)

(F) ETS may be ordered at the customer's option on a single term commitment period of either three years or five years. The customer must notify the Company in writing of the length of its selected term commitment period. The Access Order Charge does not apply to establish a new, or make any changes to an existing, ETS Term Discount Plan.

(G) Discontinuance Charges

Discontinuance charges apply when the customer fails to satisfy the term commitment period and does not simultaneously replace that term plan commitment with a qualifying replacement term plan commitment. The term plan discontinuance charge is equal to 35% of the applicable undiscounted monthly rate set out in 13.2.4, below, multiplied by the number of full and partial months remaining in the existing term commitment period.

11.2.3 Service Elements

There are two standard rate elements; the local loop, and transport to the Pittock Block located at 921 SW Washington St., Portland, OR 97205. Additional charges for construction, special equipment, or additional labor may apply. A three or five year term is required. (T)

An optional Interoffice Transport element may be charged for cross-connecting other Telephone Company's network to Canby Telcom for transport to the Pittock Block. (N)
|
(N)

When the ETS is installed, the notice of installation constitutes the customer's acceptance of the Rules and Regulations set forth in this Tariff and the start of the three or five year term.
