Advice No. C28-2018

Filing Center
Oregon Public Utility Commission
PO BOX 1088
Salem OR 97308-1088

Attention: Filing Center

Pursuant to ORS 759.250, Qwest Corporation, d/b/a CenturyLink QC is filing notification of a Special Contract for ISDN Primary Rate Service (PRS). ISDN PRI Service is included as part of a CenturyLink Total Advantage™ Express Agreement which is provided by Qwest Communications Company (QCC) LLC, d/b/a CenturyLink QCC. This agreement was signed on June 30, 2017. ISDN PRS is the only local regulated service in this contract.

Due to the competitive nature of this Special Contract, the information provided in Attachment C contains commercially valuable information and/or trade secrets and is submitted to Staff in confidence pursuant to ORS 192.501 and ORS 192.502. We understand that you will notify us prior to release of any such information in sufficient time to seek a protective order from the Commission or to otherwise preserve its confidentiality.

We enclose one complete copy of the contract and amendment which contains confidential information for Staff review. As provided by the provisions of ORS 759.250(6), CenturyLink requests this information not be publicly disclosed. Confidential information has been removed from the additional copies included in this filing for public disclosure.

Please direct any questions or concerns regarding this filing to me at (318) 855-0136.

Yours very truly,

A handwritten signature in black ink that reads "Ashley Douglas".

ISDN PRS
CONTRACT NSP # 247265
CONTRACT SUMMARY

Type Of Agreement: New Request: X Renewal: ____ Addition: ____

Term Of Agreement: The term of the contract is 12 months.

Effective Date: June 30, 2017

ISDN PRIMARY RATE SERVICE (PRS)

Service Description:

ISDN Primary Rate Service (PRS) is a digital four-wire full duplex transmission path between ISDN-compatible Customer Premises Equipment (CPE) and an ISDN-equipped central office.

Description of Offer:

Customer receives a price discount in Oregon for the business service noted above. All other terms and conditions of this contract are offered in accordance with the Oregon QC Exchange and Network Services Price List.

Unit Price:

Service:	ISDN Primary Rate
Number of Arrangements:	30
Monthly Unit Price:	\$300

ISDN PRS
CONTRACT NSP # 247265
CONTRACT SUMMARY

I. CONTRACT ANALYSIS

- a. Please provide the rationale and justification for creating a special class of service. The rationale must include a discussion as to why no previously approved class of service (contract or tariff) is acceptable to the Customer for whom the utility proposes a special class of service. Determination of a special class of service must be based on the following:

The quantity of service used, the time when used, the purpose for which used, the existence of price competition or a service alternative, the services being provided, the conditions of service, or any other reasonable consideration.

Answer:

Current tariffs for services included in the contract do not provide pricing recognizing this customer's volume of service and commitment to retain service across CenturyLink's territory. The total volume of facilities being ordered by the customer justifies going beyond the standard terms offered in the tariff for similar services. Competitive alternatives such as resale of CenturyLink QC service are available to customers.

- b. The number of similarly situated Customers who should receive the same terms and conditions. Also, include the number of billing units for those Customers.

Answer:

All similarly situated customers should receive the same terms and conditions.

- c. If there are other similarly situated Customers who should not receive the same terms and conditions, explain the differences between those Customers and the special contract Customer.

Answer:

Not applicable; all similarly situated customers should receive the same offer.

- d. Summarize termination clause in the contract that protects CenturyLink if the customer stops the service early and CenturyLink does not recover initial costs.

Answer:

Termination Liability applies per the Oregon QC Exchange and Network Services Price List.

ISDN PRS
CONTRACT NSP # 247265
CONTRACT SUMMARY

e. Was there a Request for Proposal? Please describe.

Answer:

CenturyLink negotiated with this customer for ISDN PRI services.

f. Are there competitive alternatives? If yes, who are the competitive providers and what services do they offer?

Answer:

Yes. Almost all Competitive Local Exchange Companies offer this common business service.

CENTURYLINK® TOTAL ADVANTAGE® AGREEMENT
CenturyLink QCC and Affiliated CenturyLink Companies
General Terms and Conditions

This CenturyLink® Total Advantage® Agreement is between CenturyLink Sales Solutions, Inc. as contracting agent on behalf of the applicable CenturyLink company providing the Services under the General Term and Conditions ("CenturyLink") and [REDACTED] ("Customer") and is effective on the date the last party signs it ("**Agreement Effective Date**"). The name of the CenturyLink operating company providing Services to Customer is listed below or in the applicable Service Exhibit, each acting separately and individually responsible for all of its own obligations. CenturyLink may withdraw this offer if Customer does not execute and deliver the General Terms and Conditions to CenturyLink on or before **July 7th, 2017** ("**Cutoff Date**"). Using CenturyLink's electronic signature process for the General Terms and Conditions is acceptable.

*Exhibit H of the RMSA, attached hereto, is incorporated into this Agreement as the governing terms and conditions for CenturyLink's provision of existing Frame Relay Services that are being transferred from the RMSA to this Agreement. Customer agrees that no changes or additions may be made to Customers existing Frame Relay Services until such Services are terminated, and CenturyLink's obligation to provide the Service will not extend beyond two (2) years from the Effective Date of this Agreement. As of the Effective Date of this Agreement, any references in Exhibit H to the "Qwest Corporation Retail Master Services Agreement," or "Agreement" shall mean this Agreement," and any references to Qwest Corporation or "QC" will mean CenturyLink QC.

**CENTURYLINK® TOTAL ADVANTAGE® AGREEMENT
ISDN PRS, DSS, OR UAS SERVICE EXHIBIT
INDIVIDUAL CASE BASIS**

1. General; Definitions. In order to qualify for the pricing in the Pricing Attachment under this individual case basis service exhibit ("Service Exhibit"), Customer must order the total circuits indicated on the Pricing Attachment for each state, for CenturyLink QC Integrated Services Digital Network Primary Rate Service ("ISDN PRS"), or Digital Switched Service ("DSS") with "Advanced" or "Basic" trunks, or Uniform Access Solution Service ("UAS") (individually and collectively referred to as the "Service The circuits may be aggregated across CenturyLink's local serving areas in Arizona, Colorado, Idaho, Iowa, Minnesota, Montana, Nebraska, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming. Subject to Section 17.2 (Conflicts Provision) of the General Terms and Conditions, CenturyLink will provide Service under the terms of the General Terms and Conditions, Tariff, and this Service Exhibit. Capitalized terms not defined in this Service Exhibit are defined elsewhere in the Agreement.

"Minimum Circuits" means the total circuits initially ordered for all states, as shown on each state's Pricing Attachment.

"Minimum Service Period" means twelve (12) months from the Service Acceptance Date (as defined in the General Terms and Conditions).

"Service Term" means the term length for Service on the Pricing Attachment(s), which will commence on the Service Acceptance Date for the first Service added on the Pricing Attachment.

2. Service. Service is subject to Tech Pub 77400 located at <http://qwest.centurylink.com/techpub/>.

2.1 Service Description.

(a) ISDN PRS. If Customer purchases ISDN PRS, CenturyLink will provide digital intraLATA, intrastate, switched local exchange telecommunications service utilizing ISDN PRS technology that transports and distributes voice, data, image, and facsimile communications separately or simultaneously over the public, switched, local exchange network. An ISDN PRS circuit includes a DS1 facility, an ISDN PRS service configuration, and trunks. ISDN PRS operates at 1.544 megabits per second (Mbps). ISDN PRS may be configured as 23 B channels and one D channel, 24 B channels only (24B), or 23 B channels and one back-up D channel (23B+BU). Each B channel transmits voice or data at 64 kilobits per second (Kbps). The D channel carries signaling information at 64 Kbps.

(b) ISDN PRS-UAS. If Customer purchases ISDN PRS, Customer may also select Uniform Access Solution service as an optional feature as that service is defined in the Tariff under Primary Rate Service. An ISDN PRS-UAS circuit provides digital service with single-number route indexing, which includes a DS1 facility with common equipment, and a network connection which provides for local exchange, toll network access. Each DS1 facility utilizes channels configured as: (i) in-only trunking; or (ii) two-way trunking.

(c) DSS. If Customer purchases DSS, CenturyLink will provide Customer with a circuit that includes a digital DS1 facility, common equipment to interconnect with CenturyLink's local exchange switching office and Advanced or Basic flat-usage trunks and DID trunk termination for access to the local exchange and toll networks. DSS Advanced and Basic operates at a maximum speed of 1.544 Mbps.

(d) UAS. If Customer purchases UAS, CenturyLink will provide Customer with a digital circuit with single-number route indexing, which includes a DS1 facility with common equipment, and a network connection which provides for local exchange, toll network access. Each DS1 facility utilizes channels configured as: (i) in-only trunking; or (ii) two-way trunking.

2.2 Service Provided.

(a) CenturyLink will provide and maintain the Service at the locations specified in the Pricing Attachment(s), and as requested on any subsequent order for Service or amendment to this Service Exhibit.

(b) CenturyLink will notify Customer of the date Service is available for use. In the event Customer informs CenturyLink that it is unable or unwilling to accept Service at such time, the subject Service will be held available for Customer for a period not to exceed thirty (30) business days from such date ("Grace Period"). CenturyLink shall work with Customer during the Grace Period to make the Service acceptable to Customer. If after the Grace Period, Customer still has not accepted Service, CenturyLink may upon prior written notice to Customer, either: (i) commence with regular monthly billing for the subject Service; or (ii) cancel the subject Service. If Customer cancels an order for Service prior to the date Service is available for use, or is unable to accept Service during the Grace Period and CenturyLink cancels the Service at the end of the Grace Period, the Tariff cancellation charges may apply.

2.3 Customer Responsibilities for 911 Call Routing.

(a) If Customer purchases ISDN PRS or DSS Advanced under this Agreement, Customer understands and acknowledges that the PBX's main number Automatic Number Identification (ANI) may be forwarded to a Public Safety Answering Point ("PSAP") during a 911 call. DID digits assigned to a PBX station may not be used for 911 calls unless an Automatic Location Identification (ALI) record has been created for the DID number.

(b) Customer's PBX must be capable of recognizing "911" or "9911" digits as a complete dialing sequence, and routing those calls as an outbound local call.

(c) Customer hereby agrees to release CenturyLink from any liability if an incorrect telephone number is forwarded to a PSAP as a result of PBX, ISDN PRS or DSS Advanced signaling parameters set by Customer.

2.4 Service Changes.

(a) Moves. Customer may move the physical location of all or part of a Service to another location within a CenturyLink serving area, provided the following conditions are met: (i) Service moved to the new location is provided to Customer by CenturyLink; (ii) Customer advises CenturyLink that Service at the new location replaces the existing Service; (iii) Customer's request for disconnection of the existing Service and installation of the Service at the new location are received by CenturyLink on the same date; (iv) Customer

**CENTURYLINK® TOTAL ADVANTAGE® AGREEMENT
ISDN PRS, DSS, OR UAS SERVICE EXHIBIT
INDIVIDUAL CASE BASIS**

requests that CenturyLink install the Service at the new location on or prior to the disconnection date of the existing Service; and (v) Customer agrees to pay all applicable charges for the requested move and Service at the new location, as set forth in the applicable Order Form.

(b) Additions to Service. Service may be added under a Pricing Attachment up to twelve (12) months prior to the expiration date of the Term, at the MRCs specified therein. CenturyLink will supply such additions to Customer, subject to the following conditions: (i) the necessary facilities are available as determined by CenturyLink to provide the Service; and (ii) a new Minimum Service Period is established for each new addition to Service. If the Service being added is not itemized in the Pricing Attachment, Customer agrees to execute an Order Form evidencing such addition to Service.

(c) Additions During Last 12 Months of Term. If Customer orders Service during the last twelve (12) months of the Term, they must be added (a) pursuant to an Order Form to add Service with a new Minimum Service Period under a new Pricing Attachment; or (b) on a month-to-month basis at the rates in effect in the Tariff.

2.5 Out-of-Service Credit. If CenturyLink causes a Service interruption, an out-of-service credit will be calculated under the state local exchange Tariff. If there is no applicable Tariff and the interruption lasts for more than twenty-four (24) consecutive hours after CenturyLink receives notice of it, CenturyLink will give Customer a credit calculated by dividing the MRC for the affected Service by thirty (30) days and multiplying that daily rate by the number of days that Service was interrupted.

2.6 Use of Service. Customer will use ISDN PRS and its optional features for communication purposes only. If CenturyLink determines that ISDN PRS or any optional feature is being used in violation of the Agreement or the applicable Tariff, CenturyLink may suspend or disconnect the ISDN PRS service or feature in accordance with the suspension and termination provisions of Sections 16 (Termination) and 17.24 (Suspension of Services) of the General Terms and Conditions, respectively, except to the extent that Tariff provisions must, by law, apply and the Termination Charges specified in the Termination section below may apply. CenturyLink shall provide the contractual notice required by Sections 16 (Termination) and 17.24 (Suspension of Services) of the General Terms and Conditions if reasonably practicable, provided however that shorter notice maybe required in exigent circumstances.

3. Service Exhibit Term; Minimum Service Period; Service Term; Termination.

3.1 Exhibit Term / Minimum Service Period / Service Term. This Service Exhibit will begin on the Agreement Effective Date and is coterminous with the Term, unless terminated earlier by either party as permitted under the Agreement ("Exhibit Term"). The Service Term for each Service will be indicated on a Pricing Attachment. Each Service ordered will have its own Minimum Service Period. Any Service installed for twelve (12) consecutive months prior to being added under a Pricing Attachment will be deemed to have met the Minimum Service Period.

3.2 Termination.

(a) Either party may terminate Service under this Service Exhibit in accordance with the Section 16.1 (Termination) of the General Terms and Conditions. In addition, Customer may disconnect the number of "Permitted Disconnects" indicated on the Pricing Attachment, if any, without incurring a Termination Charge; provided that such Service has satisfied the requirements of the Minimum Service Period before any termination may be effective. If, prior to the conclusion of the Service Term, Service is terminated in excess of the Permitted Disconnects, either by CenturyLink for Cause or by Customer for Convenience, then Customer will also be liable for 100% of the MRC for terminated Service in excess of the Permitted Disconnects times the number of months (or fraction thereof) remaining (if any) in the Minimum Service Period, and 50% of the MRC times the number of months (or fraction thereof) remaining in the Service Term after the Minimum Service Period ("Termination Charge"). If no Permitted Disconnects are indicated on the Pricing Attachment, Customer will pay the Termination Charge for each circuit terminated by CenturyLink for Cause or by Customer for Convenience, prior to the Service Term.

(b) A Termination Charge will be waived when all of the following conditions are met: (i) Customer discontinues Service and signs a new service agreement(s) for any other CenturyLink provided service(s) or adds Exhibit(s) to the Agreement for any other CenturyLink provided Service; (ii) the new service agreement(s) or Service Exhibit(s) have a total value equal to or greater than 115% of the remaining prorated value of the terminated Service (excluding any Approved Construction charges, applicable nonrecurring charges, or previously billed but unpaid recurring and nonrecurring charges); (iii) Customer places the orders to discontinue the Service and establish new service at the same time (within 30 calendar days of each other if service is in New Mexico); (iv) the new service(s) installation must be completed within 30 calendar days of disconnection of the Service, unless such installation delay is caused by CenturyLink; and (v) a new minimum service period, if applicable, goes into effect when the new service agreement term begins. The waiver does not apply to changes between regulated and unregulated or enhanced products and services.

4. Charges.

4.1 Charges for the Service are as set forth in the Pricing Attachment. Customer will pay the total MRC and NRC for the Service specified in the Pricing Attachment in accordance with Section 6 (Payment) of the General Terms and Conditions. For Service requested on any subsequent Order Forms, Customer will also pay the total MRC and NRC specified on the subsequent Order Forms. The MRC for the Service will not change during the Service Term of this Service Exhibit. The charges for Service under this Service Exhibit, including any and all discounts to which Customer may be entitled, will be offered and charged to Customer independently from and regardless of the Customer's purchase of any customer premises equipment or enhanced services from CenturyLink.

4.3 If Service is not available in Customer's wire center, standard interoffice private line mileage charges ("Mileage MRC" and "Mileage NRC") for transport between switches will apply in addition to the rates and charges for the Service.
