RE: Updates to Crooked River Ranch Water Company Tariff, Rule 10

We are requesting a change to Rule 10 in response to Order No 24-077 UW 194

In the Compliance Audit Report, the conclusion requires us to update Rule 10 Main line extension with the following verbiage:

For a period of 5 years after the construction of the requested main line extension, the Utility shall also collect from any additional applicants who connect to the main line extension an amount per foot equal to the new applicant's proportionate share of the main line extension cost for that previously shared the cost of said main line extension. Refunds shall not exceed the amount originally advanced.

Thanks for your consideration.

Frank Day
General Manager
Crooked River Ranch Water Company

Rule 8: Water Service Connections ([OAR 860-036-1300](#))

The water service connection is defined as the facilities used to connect the Utility’s distribution network to the point of connection at the customer’s service line. The Utility owns, operates, maintains, and replaces the service connection when necessary and promptly repairs all breaks and leaks. The customer shall not be responsible for any damage or poor service due to inadequacy of the Utility’s service lines or any portion of the Utility’s plumbing.

Rule 9: Service Connection Charge ([OAR 860-036-1300\(3\)](#))

An applicant requesting permanent water service to a premise not previously supplied with permanent service by the Utility may be required to pay the cost of the service connection, including or excluding the meter as provided in Rule No. 8 and the Utility’s Miscellaneous Service Charges in this tariff.

Rule 10: Main Line Extension Policy ([OAR 860-036-1310](#))

A main line extension is defined as the extension of the Utility's main line necessary to provide service to a customer when the property does not currently have main line frontage.

Main line extension charges, if any, are stated in the Utility's tariff or statement of rates.

For a period of 5 years after the construction of the requested main line extension, the Utility shall also collect from any additional applicants who connect to the main line extension an amount per foot equal to the new applicant’s proportionate share of the main line extension cost for the previously shared the cost of said main line extension. Refunds shall not exceed the originally advanced.

The Utility maintains a main line extension policy that lists all applicable charges; and describes the advance and refund provisions, including a description of the mechanisms for collecting and rebating the amount charged equitably among the customers who paid for the cost of the line, and provides the time period during which the advance and rebate provisions apply.

Rule 11: Types of Use

Water service may be supplied for residential, commercial, irrigation, temporary construction, special contracts, fire prevention, and other uses. The Utility shall file separate rate schedules for each type of use and basis of supply.

Rule 12: Reserved for Future Use

Issue Date / Filing Date	May 7, 2024	Effective for Service on or after	June 24, 2024
