(h) Full description of the securities proposed to be issued, showing: kind and nature of securities or liabilities; amount (face value and number of shares); interest or dividend rate, if any; date of issue and date of maturity; and voting privileges, if any.

The Company is proposing to update and increase its authority to issue, from time to time, unsecured short-term promissory notes (Promissory Notes) and borrow from United States or foreign commercial banks under the following facilities:

- 1. Not more than \$2.0 billion in aggregate principal amount outstanding at any one time under one or more revolving credit agreements (Agreements); and
- 2. Not more than \$2.0 billion in aggregate principal amount outstanding at any one time under other borrowing arrangements (Other Arrangements).

This would replace the previous authority that PacifiCorp had received through Order No. 98-158.

PacifiCorp seeks authority to issue unsecured promissory notes and other evidences of unsecured short-term indebtedness, comprised of bank notes, including borrowings under revolving credit agreements, and commercial paper notes (collectively, "Notes") from time to time, in an aggregate principal amount of up to \$2.0 billion outstanding at any one time, on or before December 31, 2024, with a final maturity date no later than one year from the date of issuance. PacifiCorp may establish and maintain backup lines of credit with banks or other institutional lenders to support its commercial paper program and to establish other credit arrangements or borrowing facilities, including multiple year, as it deems appropriate in light of its needs and market conditions.

The bank notes are to be issued to commercial banking institutions to evidence loans made by such banks either directly or under revolving credit agreements and to bear interest at prevailing rates from time to time. The bank notes may have a maturity on demand with annual renewals, or a specific maturity of less than one year depending on financial needs, but in no case will they have a maturity of more than one year. The bank notes may or may not have to be renewed at maturity, depending on PacifiCorp's cash position and financing needs.

PacifiCorp presently maintains an unsecured revolving credit facility totaling \$1.2 billion used for general corporate purposes including letters of credit and working capital needs. PacifiCorp expects to periodically replace, renew or amend, including increasing or decreasing the size of the current revolving credit agreement to facilitate ongoing short-term borrowings to support its capital expenditure program. PacifiCorp's capital expenditure program has grown significantly in size recently due to adding new renewable generation resources, associated transmission and investments wildfire mitigation assets to meet the needs of PacifiCorp's customers and the policy objectives of PacifiCorp's state regulatory commissions. PacifiCorp expects that these new or amended facilities will have terms comparable to the existing credit agreement and reflective of then-current market conditions.

Only the amounts drawn and outstanding under these credit agreements and facilities will be counted against the amount of short-term debt. If the present Application is granted, not more than \$2.0 billion principal aggregate amount of PacifiCorp's unsecured bank notes and commercial paper notes, including amounts drawn and outstanding under credit agreements and facilities, will be outstanding at any one time.

Bank notes and commercial paper will be issued and sold to provide funds for capital expenditures and general corporate purposes.

Maximum Interest Rate on Short-Term Debt

The interest to be paid on bank notes, including borrowings under revolving credit facilities, and commercial paper notes will not exceed the greater of:

• overnight, one-month, three-month and six-month London Interbank Offered Rate (LIBOR) rates, or a LIBOR-alternative rate such as the Secured Overnight Financing Rate (SOFR), that may be widely adopted during the period described in this application, most closely matching the maturity of the bank note or commercial paper

- at the date of issuance(s) as published by *The Wall Street Journal* at https://www.wsj.com/market-data/bonds, plus a margin of up to 200 basis points; or
- the Base Rate, plus up to 150 basis points, whereunder the Base Rate shall be the rate per annum equal to the highest of (i) the rate of interest as announced by JPMorgan Chase Bank, N.A. from time to time as its "Prime Rate," (ii) the sum of 50 basis points plus the Federal Funds Rate in effect from time to time, and (iii) the rate of interest per annum equal to the one-month LIBOR, or a LIBOR-alternative rate such as SOFR, that may be widely adopted during the period described in this application, as published in *The Wall Street Journal*, plus 100 basis points.

In connection with its issuance and sale of Notes, PacifiCorp may negotiate for the inclusion of certain terms or seek to engage in certain transactions designed to lower its overall cost of money or reduce its exposure to interest rate fluctuations for the benefit of ratepayers.

PacifiCorp may enter into certain risk management transactions such as fixed rate financing accompanied by a fixed for floating financial derivative instrument, floating rate financing accompanied by a floating for fixed financial derivative instrument, or some combination thereof.

The Notes will not be listed on any stock exchange.

Coverage Ratio

PacifiCorp is providing as Exhibit H a Computation of Interest Coverage showing on a *pro forma* basis the impact of the Notes on its net income and interest coverage ratio, based on assumed interest rate of a one-month LIBOR rate of 3.01386 percent (which was the published LIBOR rate on September 16, 2022) plus a margin of 200 basis points. As indicated thereon, these *pro forma* values are based on actual figures for the 12 months ending June 30, 2022 (Column A). To these figures, *pro forma* adjustments are made for the New Short-Term Debt requested in this application. These adjustments yield *pro forma* net income and interest coverage figures (Column B). As shown on the last line of Column B, the *pro forma* interest coverage ratio reflecting the requested New Short-Term Debt is 2.0.

- (i) Description of the proposed transaction, including a statement of the reasons why it is desired to consummate the transaction and the anticipated effect thereof. If the transaction is part of a general program, describe the program and its relation to the proposed transaction. Such description shall include:
- (A) Description of the proposed method of issuing and selling the securities.

 Agreements:

PacifiCorp proposes to enter into Agreements pursuant to which it could issue, from time to time, its unsecured, short-term notes to certain foreign and domestic commercial banks in amounts not exceeding \$2 billion aggregate principal amount at any one time outstanding. Syndicated loan borrowings will occur in proportion to each bank's commitment under the respective Agreements and at the rates and the fees set forth in subsection (h) above. Non-syndicated Loan borrowings will occur on a competitive bid basis among the banks participating in the Agreements. Non-syndicated Loans are deemed to be usage of the facilities for the purpose of fees and availability. However, each Bank's advance shall not reduce such Bank's pro rata share of the remaining undrawn commitment.

The Company expects that the Agreements will allow it to borrow and reborrow from the banks up to the amounts committed for a period of up to five years.

Other Arrangements:

The Company also proposes to enter into Other Arrangements from time to time with various domestic or foreign commercial banks pursuant to which it would issue its unsecured, short-term notes for loans on an "as available" basis from a lender or, if the Company elects, on committed basis as evidenced by letters from the banks. Borrowings under the Other Arrangements will be at a market rate of interest. There will be no fees associated with maintaining the Other Arrangements, unless the Company elects to obtain a

committed line, in which case the fee is not expected to exceed 0.125 percent of the unused commitment.

The ability to enter into Other Arrangements will give the Company the flexibility to take advantage of loan offers from various banks. The Other Arrangements will not affect the fees paid under the Agreements.

(B) Statement of whether such securities are to be issued pro rata to existing holders of the company's securities or issued pursuant to any preemptive right or in connection with any liquidation or reorganization.

This debt will not be issued pro rata to existing holders of PacifiCorp's securities and will not be issued pursuant to any preemptive rights or in connection with any liquidation or reorganization.

(C) Statement showing why it is in the company's interest to issue securities in the manner proposed and the reason(s) why it selected the proposed method of sale.

See Section (n)(A) below.

(D) Statement that exemption from the competitive bidding requirements of any federal or other state regulatory body has or has not been requested or obtained, and a copy of the action taken thereon when available.

The issuance of the debt is not subject to the competitive bidding requirements of federal or state regulatory bodies.

(j) Name and address of any person receiving or entitled to a fee for service (other than attorneys, accountants and similar technical services) in connection with the negotiation or consummation of the issuance or sale of securities, or for services in securing underwriters, sellers or purchasers of securities, other than fees included in any competitive bid; the amount of each such fee, and facts showing the necessity for the services and that the fee does not exceed the customary fee for such services in arm's length transactions and is reasonable in the light of the cost of rendering the service, and any other relevant facts.

PacifiCorp believes that the compensation levels to the bank participants are not greater than the usual and customary fees prevailing currently in the market. These fees are reasonable given the services provided by the bank participants. The bank participants will be

familiar with PacifiCorp, its parent company and affiliates and their short-term financing needs. They will be available for consultation on these matters and will assist PacifiCorp in evaluating market conditions and in formulating the exact terms of the transactions

(k) Statement showing both in total amount and per unit the price to the public, underwriting commissions and net proceeds to the company.

Due to the fact that this is unsecured short-term debt these fees are not applicable.

(l) Purposes for which the securities are to be issued.

The Purpose of this request for authority is to:

- (A) Secure sources of committed funds available to the Company to finance its short-term capital requirements and to serve as backup for the issuance of its commercial paper.
- (B) Have the option to borrow under multiple facilities from a variety of competing sources to provide lower cost alternatives under differing market conditions.

The purposes for which securities are proposed to be issued in this matter are the acquisition of utility property, the construction, extension or improvement of utility facilities, the improvement or maintenance of service, the discharge or lawful refunding of obligations which were incurred for utility purposes or the reimbursement of the Company's treasury for funds used for the foregoing purposes, all as permitted under ORS 757.415 (1).

The Company keeps its accounts in a manner which enables the Commission to ascertain the amount of money expended and the purposes for which the expenditures were made. If the funds to be reimbursed were used for the discharge or refunding of obligations, those obligations or their precedents were originally incurred in furtherance of the utility purposes listed above.

PacifiCorp's capital expenditure program has grown significantly in size recently due to adding new renewable generation resources, associated transmission and investments

wildfire mitigation assets to meet the needs of PacifiCorp's customers and the policy objectives of PacifiCorp's state regulatory commissions. PacifiCorp expects that these new or amended facilities will have terms comparable to the existing credit agreement and reflective of then-current market conditions.

(m) Statement as to whether or not any application, registration statement, etc., with respect to the transaction or any part thereof, is required to be filed with any federal or other state regulatory body.

In addition to this Application, PacifiCorp is filing an application with the Idaho
Public Utilities Commission and will provide a notice to the Washington Utilities and
Transportation Commission, and a filing regarding PacifiCorp's short term debt authority
will be made with the Federal Energy Regulatory Commission (FERC).

- (n) Facts relied upon by the company to show that the issue:
 - (A) Is for some lawful object within the corporate purposes of the company.

As a public utility, PacifiCorp is expected to acquire, construct, improve, and maintain sufficient utility facilities to serve its customers adequately and reliably at reasonable cost. The proposed authority are part of a program to finance the cost of PacifiCorp's facilities taking into consideration prudent capital ratios, earnings coverage tests, market uncertainties and the relative merits of the various types of securities PacifiCorp could sell or other financing it could arrange.

(B) Is compatible with the public interest.

See Section (n)(A) above.

(C) Is necessary or appropriate for or consistent with the proper performance by the company of service as a utility.

See Section (n)(A) above.

(D) Will not impair the company's ability to perform utility service.

See Section (n)(A) above.

(E) Is reasonably necessary or appropriate for such purposes.

See Section (n)(A) above.

(F) If filed under ORS 757.495, is fair and reasonable and not contrary to the public interest.

PacifiCorp is not filing this Application pursuant to ORS 757.495. Therefore, this requirement is not applicable. The Company respectfully requests a waiver of this provision.

(o) Statement of all rights to be a corporation, franchises, permits and contracts for consolidation, merger or lease included as assets of the company or any predecessor thereof, the amounts actually paid as consideration therefore, respectively, and the facts relied upon to show the issuance of the securities for which approval is requested will not result in the capitalization of the right to be a corporation of or any franchise, permit or contract for consolidation, merger or lease in excess of the amount (exclusive of any tax or annual charge) actually paid as the consideration for such right, franchise, permit or contract.

The requirement of OAR 860-027-0030(1)(o) are not applicable. PacifiCorp respectfully requests a waiver of these filing requirements.

(p) If filed under ORS 757.490, ORS 757.495:

PacifiCorp is not filing this Application pursuant to ORS 757.490 or ORS 757.495.

Therefore, this filing requirement is not applicable. PacifiCorp respectfully requests a waiver of this provision.

As of June 30, 2022, Account 236, Taxes accrued, included \$73,629,504 of income tax payable to Berkshire Hathaway Energy Company, PacifiCorp's indirect parent company.

EXHIBIT F

Exhibit F

Commitments and Contingencies

Construction Commitments

During the six-month period ended June 30, 2022, PacifiCorp entered into a procurement and construction services agreement for \$849 million through 2024 for the construction of a key Energy Gateway Transmission segment extending between the Aeolus substation near Medicine Bow, Wyoming and the Clover substation near Mona, Utah.

Fuel Contracts

During the six-month period ended June 30, 2022, PacifiCorp entered into certain coal supply and transportation agreements totaling approximately \$200 million through 2024.

Legal Matters

PacifiCorp is party to a variety of legal actions arising out of the normal course of business. Plaintiffs occasionally seek punitive or exemplary damages. PacifiCorp does not believe that such normal and routine litigation will have a material impact on its consolidated financial results. PacifiCorp is also involved in other kinds of legal actions, some of which assert or may assert claims or seek to impose fines, penalties and other costs in substantial amounts and are described below.

2020 Wildfires

In September 2020, a severe weather event resulting in high winds, low humidity and warm temperatures contributed to several major wildfires, real and personal property and natural resource damage, personal injuries and loss of life and widespread power outages in Oregon and Northern California. The wildfires spread across certain parts of PacifiCorp's service territory and surrounding areas across multiple counties in Oregon and California, including Siskiyou County, California; Jackson County, Oregon; Douglas County, Oregon; Marion County, Oregon; Lincoln County, Oregon; and Klamath County, Oregon burning over 500,000 acres in aggregate. Third party reports for these wildfires indicate over 2,000 structures destroyed, including residences; several structures damaged; multiple individuals injured; and several fatalities. Fire suppression costs estimated by various agencies total approximately \$150 million. Investigations into the cause and origin of each wildfire are complex and ongoing and being conducted by various entities, including the United States Forest Service, the California Public Utilities Commission, the Oregon Department of Forestry, the Oregon Department of Justice, PacifiCorp and various experts engaged by PacifiCorp.

Multiple lawsuits have been filed in Oregon and California, including a putative class action complaint in Oregon, on behalf of citizens and businesses who suffered damages from fires allegedly caused by PacifiCorp. Additionally, several insurance carriers have filed subrogation complaints in Oregon and California with allegations similar to those made in the aforementioned lawsuits. The final determinations of liability, however, will only be made following comprehensive investigations and litigation processes.

In California, under inverse condemnation, courts have held that investor-owned utilities can be liable for real and personal property damages without the utility being found negligent and regardless of fault. California law also permits inverse condemnation plaintiffs to recover reasonable attorney fees and costs. In both Oregon and California, PacifiCorp has equipment in areas accessed through special use permits, easements or similar agreements that may contain provisions requiring it to pay for damages caused by its equipment regardless of fault. Even if inverse condemnation or other provisions do not apply, PacifiCorp could nevertheless be found liable for all damages proximately caused by negligence, including real and personal property and natural resource damage; fire suppression costs; personal injury and loss of life damages; and interest.

During the three-month period ended June 30, 2022, PacifiCorp accrued \$64 million of losses net of expected insurance recoveries associated with the 2020 Wildfires resulting in an overall loss accrual net of expected insurance recoveries of \$200 million as of June 30, 2022 compared to \$136 million as of December 31, 2021. These accruals include PacifiCorp's estimate of losses for fire suppression costs, real and personal property damages, natural resource damages and noneconomic damages such as personal injury damages and loss of life damages that are considered probable of being incurred and that it is reasonably able to estimate at this time. For certain aspects of the 2020 Wildfires for which loss is considered probable, information necessary to reasonably estimate the potential losses, such as those related to natural resource damages, is not currently available. It is reasonably possible that PacifiCorp will incur additional losses beyond the amounts accrued; however, PacifiCorp is currently unable to estimate the range of possible additional losses that could be incurred due to the number of properties and parties involved and the variation in those types of properties and lack of available details. To the extent losses beyond the amounts accrued are incurred, additional insurance coverage is expected to be available to cover at least a portion of the losses. PacifiCorp's receivable for expected insurance recoveries was \$277 million as of June 30, 2022.

Environmental Laws and Regulations

PacifiCorp is subject to federal, state and local laws and regulations regarding air and water quality, renewable portfolio standards, emissions performance standards, climate change, coal combustion byproduct disposal, hazardous and solid waste disposal, protected species and other environmental matters that have the potential to impact PacifiCorp's current and future operations. PacifiCorp believes it is in material compliance with all applicable laws and regulations.

Hydroelectric Relicensing

PacifiCorp is a party to the 2016 amended Klamath Hydroelectric Settlement Agreement ("KHSA"), which is intended to resolve disputes surrounding PacifiCorp's efforts to relicense the Klamath Hydroelectric Project. The KHSA establishes a process for PacifiCorp, the states of Oregon and California ("States") and other stakeholders to assess whether dam removal can occur consistent with the settlement's terms. For PacifiCorp, the key elements of the settlement include: (1) a contribution from PacifiCorp's Oregon and California customers capped at \$200 million plus \$250 million in California bond funds; (2) complete indemnification from harms associated with dam removal; (3) transfer of the Federal Energy Regulatory Commission ("FERC") license to a third-party dam removal entity, the Klamath River Renewal Corporation ("KRRC"), who would conduct dam removal; and (4) ability for PacifiCorp to operate the facilities for the benefit of customers until dam removal commences.

In September 2016, the KRRC and PacifiCorp filed a joint application with the FERC to transfer the license for the four mainstem Klamath dams from PacifiCorp to the KRRC. The FERC approved partial transfer of the Klamath license in a July 2020 order, subject to the condition that PacifiCorp remains co-licensee. Under the amended KHSA, PacifiCorp did not agree to remain colicensee during the surrender and removal process given concerns about liability protections for PacifiCorp and its customers. In November 2020, PacifiCorp entered a memorandum of agreement (the "MOA") with the KRRC, the Karuk Tribe, the Yurok Tribe and the States to continue implementation of the KHSA. The agreement required the States, PacifiCorp and KRRC to file a new license transfer application to remove PacifiCorp from the license for the Klamath Hydroelectric Project and add the States and KRRC as co-licensees for the purposes of surrender. In addition, the MOA provides for additional contingency funding of \$45 million, equally split between PacifiCorp and the States, and for PacifiCorp and the States to equally share in any additional cost overruns in the unlikely event that dam removal costs exceed the \$450 million in funding to ensure dam removal is complete. The MOA also requires PacifiCorp to cover the costs associated with certain pre-existing environmental conditions. In June 2021, the FERC approved transfer of the four mainstem Klamath dams from PacifiCorp to the KRRC and the States as co-licensees. In July 2021, the Oregon, Wyoming, Idaho and California state public utility commissions conditionally approved the required property transfer applications. In August 2021, PacifiCorp notified the Public Service Commission of Utah of the property transfer, however no formal approval is required in Utah. The transfer will be effective within 30 days following the issuance of a license surrender from the FERC for the project, which remains pending. In February 2022, the FERC staff issued a draft environmental impact statement for the project, concluding that dam removal is the preferred alternative. A final environmental impact statement is expected later in 2022.

Guarantees

PacifiCorp has entered into guarantees as part of the normal course of business and the sale or transfer of certain assets. These guarantees are not expected to have a material impact on PacifiCorp's consolidated financial results.
