Attention Vikie Bailey-Goggins

RE Docket No. AR515 - Net Metering Rules

The following are last minute comments in response to Pacific Power's comments of May 9th.

Spot and Area Networks

Net metering systems should be allowed on spot and area networks. There are both technological and system size criteria that can be used during level 2 or level 3 review of these systems that ensure utility grid safety and reliability.

Sincerely,

Christopher Dymond
Senior Energy Analyst
