The audacity of power companies is unbelievable. By clever manipulation and no thought for the rights of individuals they dare to ask for and receive the right to condemn property of rightful owners for their own selfish power grab.

How in the world can we let this happen?

There is no excuse for sanctioning theft of this magnitude. People matter! A deed for your own property should have meaning!

If one would stand back and look at the whole picture...there is no justification for ruining a landscape that has real value, stealing land, and riding roughshod over the will of the rightful owners of property through slick manipulation of tricky lawyers.

This is unconscionable! Stop it! Ordinary people matter!
