La Grande, Oregon 97850

August

I am simply requesting that Oregon Public Utilities Commission follow the rules of procedure set forth for our protection. Not too much to ask, especially when a for profit Big Business wants to push it though before they have the permits required!!!

It is inconceivable that the OREGON PUBLIC Utilities Commission, would consider folding to Idaho Power because they don't like the time frame. We all know that Haste makes waste! Please do your job and follow the written procedure for utility related disputes on behalf of OREGON residents.

The residents of Oregon certainly do not have the money that the for profit business Idaho Power does to fight this battle. We do however have the Oregon Public Utilities Commission to resolve disputes on behalf of Oregon residents. Please do not give our land away to this big business, Idaho Power.

Thank you

Cynthia Carper
