252(e) of the Telecommunications Act of 1996.)

RECOMMENDATION: APPROVE AMENDMENT

On October 24, 2012, tw telecom of oregon, llc and Qwest Corporation dba CenturyLink QC filed an amendment to their interconnection agreement with the Public Utility Commission of Oregon (Commission). The Parties seek approval of this amendment under Section 252(e) of the Telecommunications Act of 1996. The Commission provided notice by posting an electronic copy of the amendment on its website at <http://apps.puc.state.or.us/edockets/filings.asp>. The Commission Staff (Staff) offers these comments.

Under the Act, the Commission must approve or reject an agreement or amendment to an existing agreement reached through voluntary negotiation within 90 days of filing. The Commission may reject an agreement or an amendment only if it finds that:

- (1) the agreement (or portion thereof) discriminates against a telecommunications carrier not a party to the agreement; or
- (2) the implementation of such agreement or portion thereof is not consistent with the public interest, convenience, and necessity.

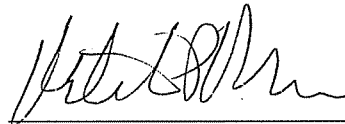

Staff notes that an interconnection agreement or amendment thereto has no effect or force until approved by a state Commission. *See* 47 U.S.C. Sections 252 (a) and (e). Accordingly, Staff points out that the effective date of this filing will be the date the Commission signs an order approving it, and that any provision stating that the parties' agreement is effective prior to that date is not enforceable.

The amendment introduces rates that replace those previously determined by the Commission. Staff's recommendation for approval of the amendment does not imply that staff agrees that the new rates are consistent with the federal requirements cited in the amendment.

The amendment should have been placed on the Consent Agenda for the January 15, 2013 Public Meeting. However, the amendment inadvertently did not appear on the Public Meeting Agenda. The due date for the order for this amendment is January 22nd, 2013, which is before the next regularly scheduled public meeting on January 29, 2013. Therefore, staff requests that a separate order be written approving the amendment.

Staff concludes that the amendment does not appear to discriminate against telecommunications carriers who are not parties to the amendment and does not appear to be inconsistent with the public interest, convenience, and necessity.

Dated at Salem, Oregon, this 14th day of January, 2013

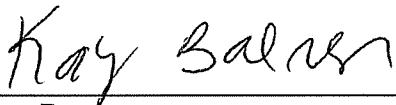

Mitch Moore
Sr. Telecommunications Analyst
Competitive Issues
Telecommunications Division

CERTIFICATE OF SERVICE

ARB 623
