| 4 | | |
| 5 | In the Matter of | STAFF RESPONSE COMMENTS |
| 6 | T-MOBILE USA, INC. AND ASOTIN TELEPHONE COMPANY | |
| 7 | Interconnection Agreement Submitted for Commission Approval Pursuant to Section 252(e) of the Telecommunications Act of 1996. | |
| 8 | | |
| 9 | | |
| 10 | On January 12, 2006, Asotin Telephone Company ("Asotin") and T-Mobile USA, Inc. | |
| 11 | (T-Mobile) asked the Commission to approve the interconnection agreement ("the Agreement") | |
| 12 | at issue in this proceeding. However, the Agreement provides that it is effective more than one | |
| 13 | year prior to the parties' request for approval. Be | ecause the parties' delay in requesting approval |
| 14 | of the Agreement results in an agreement that is potentially discriminatory to other companies, | |
| 15 | staff recommends that the Commission reject the Agreement as it written. In the alternative, | |
| 16 | staff recommends that the Commission approve the Agreement, but only on a going-forward | |
| 17 | basis. | |
| 18 | Staff concludes that the back-dated Agreement is discriminatory because other companies | |
| 19 | are only able to adopt it on a going-forward basis. Asotin disagrees, noting that other companies | |
| 20 | may take advantage of the back-dating provision as well. Asotin states that any agreement | |
| 21 | between T-Mobile or Asotin and another company will be back-dated to the day negotiations | |
| 22 | between these companies commence. (Reply to Staff Comments 2-3.) Even assuming that this | |
| 23 | is true, the Agreement at issue in this docket is still discriminatory because it amounts to what is | |
| 24 | essentially a year-long secret agreement between Asotin and T-Mobile that other companies | |
| 25 | could not have been aware of and thus, could not have asked to adopt. | |

1 In other words, if the Agreement is accepted by the Commission, providers could 2 routinely enter into agreements, but delay final execution and the Commission approval process 3 for many months, or possibly years. In this case, no other company would be aware of the terms of such agreements, and thus, could not request the opportunity to enter into the same agreement. 4 5 Furthermore, to the extent Asotin relies on the recently enacted true-up provision in 47 C.F.R. § 20.11, the reliance is misplaced. 47 CFR § 20.11(f) provides, 6 7 An incumbent local exchange carrier may request interconnection from a 8 commercial mobile radio service provider and invoke the negotiation and arbitration procedures contained in section 252 of the Act. A commercial mobile 9 radio service provider receiving a request for interconnection must negotiate in good faith and must, if requested, submit to arbitration by the state commission. 10 Once a request for interconnection is made, the interim transport and termination pricing described in § 51.175 shall apply. 11 12 47 CFR § 51.715 provides that upon request from a telecommunications carrier without 13 an existing interconnection agreement with an incumbent LEC, the incumbent LEC shall provide 14 transport and termination of telecommunications traffic immediately under an interim arrangement, pending resolution of negotiation and arbitration regarding transport and 15 16 termination rates and approval of such rates by a state commission under sections 251 and 252 of 17 the Telecommunications Act of 1996. Applicable interim rates are specified in 47 CFR § 18 51.715(b)(30. Subsection (d) of the rule provides that if the rates for transport and termination of 19 telecommunications traffic in an interim compensation arrangement differ from the rates 20 established by a state commission pursuant to § 51.705, the state commission shall require 21 carriers to make adjustments to past compensation to allow each carrier to receive the same 22 amount of compensation it would have received had the rates in the interim compensation 23 arrangement equaled the rates later established by the state commission pursuant to § 51.705. 24 The Commission has not established rates for Asotin pursuant to § 51.705. Therefore, 25 Subsection (d) of the rule is inapplicable.

| 1 | The Agreement in this docket is actually counter to the policies encompassed in 47 | |
|------|---|--|
| 2 | C.F.R. § 20.11. Instead of agreeing on an interim rate for the transport and termination of | |
| 3 | telecommunications traffic, the parties agreed that "the negotiated rate applies from the date (or | |
| 4 | close to it) that the interconnection request was made and will be applied for that interim period | |
| 5 | of time between the date the interconnection request was made and the date the agreement is | |
| 6 | approved as the interim transport and termination rate." (Reply to Staff Comments 7.) This | |
| 7 | process is not sanctioned by the federal rules. Furthermore, the federal rules specifically provide | |
| 8 | for interim compensation for the transport and termination of telecommunication traffic. The | |
| 9 | federal rules do not provide for interim provisions for all aspects of an interconnection agreement | |
| 10 | between companies. | |
| 11 | In any event, aside from the Agreement's effective date of January 1, 2005, staff believes | |
| 12 | the Agreement satisfies the requirements for approval under the Act. Accordingly, in the event | |
| 13 | the Commission does not wish to reject the Agreement, staff recommends that the Commission | |
| 14 | approve it, subject to it going into effect on a going-forward basis, only. | |
| 15 | | |
| 16 | Dated at Salem, this 13 th day of March, 2006. | |
