4 BEFORE THE PUBLIC UTILITY COMMISSION  
5 OF THE STATE OF OREGON

6 UM 1087

7 CENTRAL LINCOLN PEOPLE’S UTILITY  
8 DISTRICT,

9 Complainant,

10 v.

11 VERIZON NORTHWEST INC.,

12 Defendant.

**Central Lincoln People’s Utility  
District’s Technical Comments  
Regarding Commission’s Proposed  
Contract**

13 Complainant, Central Lincoln People’s Utility District (“CLPUD”), submits the  
14 following technical comments regarding the proposed contract attached to the Commission’s  
15 Order No. 05-042, dated January 19, 2005.

16 **A. Introduction.**

17 CLPUD understands from the Commission’s Order that the General Agreement for Joint  
18 Use of Poles Between Central Lincoln People’s Utility District and General Telephone Company  
19 of the Northwest, Inc. dated 1987 has not been terminated and is still in effect. *See* Order No. 05-  
20 042 at 8-9, 12-13, n. 7. The parties have been operating under the 1987 Agreement continuously  
21 since the time it was executed, and throughout the course of these proceedings, including paying  
22 the rates in effect under that Agreement. While there have been some further negotiations  
23 between the parties, the 1987 Agreement remains in effect, and continues to govern the parties’  
24 rights and responsibilities.

25 //

26 //

1 In the event the parties were to seek a new contract, CLPUD submits the following  
2 technical comments on the contract proposed in the Commission's Order:

3 **B. General Comments.**

4 1. The proposed agreement does not have provisions to reflect the use of electronic  
5 notification for attachments.

6  
7 2. The proposed agreement in some sections does not appear to follow the current  
8 Oregon Revised Statutes and Oregon Administrative Rules governing joint use.

9 3. The proposed agreement still has some vestiges of a reciprocal joint use pole  
10 agreement and inconsistent with a license agreement.

11 **C. Comments on Specific Sections.**

12 **1. Sections 3.1 and 3.2.**

13  
14 **a.** This section has no provision for large project applications involving a large  
15 number of joint use poles. With section 3.3 having a provision for the licensee to extend the time  
16 to attach, it should be reasonable for the pole owner to have extended time to process large  
17 projects.

18 **b.** This section has no provision for electronic notification.

19 **c.** This section is in contradiction with section 3.2 on the ability to make an  
20 attachment before application for the attachment is sent.

21 Suggested wording:

22  
23 3.1 Whenever Verizon desires to place its Equipment on any pole owned by  
24 the District, it shall make application therefore, **via a "PA" ticket, furnishing the**  
25 **permit information set forth in Attachment F using the National Joint Use**  
26 **Notification System ("NJUNS"). Verizon shall direct the application to the**  
**District's NJUNS Member Code, and the application shall contain the**  
**District's facility identification number, all required information set forth on**  
**the standard NJUNS permit application. The District shall return the**  
**application to Verizon's Member Code via the NJUNS.** If the application is

1 approved, the District shall, within thirty (30) days after receipt of this  
2 application, **respond through the NJUNS system.** If notice is not received from  
3 the District within thirty (30) days, the application shall be deemed approved and  
4 Verizon may proceed with the attachment. If the application is rejected, the  
5 District shall, within said thirty (30) day period, **provide the rejection to Verizon**  
6 **through NJUNS** and Verizon shall remove any equipment that may have been  
7 placed on the District's pole. Any denial of an application must be in writing and  
8 describe with specificity all relevant evidence and information supporting the  
9 denial and how such evidence and information relates to the lack of capacity,  
10 safety, reliability, or generally applicable engineering standards. **In the event**  
11 **that Verizon submits applications for large projects that exceed the District's**  
12 **ability to respond within thirty (30) days, the parties shall confer on a**  
13 **mutually agreeable response time. Large projects are those that involve a**  
14 **permit to attach to 25 or more District poles.**

9 **3.2 Verizon shall notify the District within thirty (30) days of completing**  
10 **the work associated with the permit, through NJUNS.** Verizon shall have the  
11 right to install, maintain and use its Equipment described in the application upon  
12 the **joint use** poles identified therein in accordance with the terms of the  
13 application and this agreement. With the exception of Service Drop attachments,  
14 Verizon shall not have the right to place nor shall it place, any Equipment in  
15 addition to that initially authorized without first making application and receiving  
16 permission to do so. Nor shall Verizon change the position of any Equipment  
17 attached to any joint use pole without District's prior written approval.

15 **2. Section 3.5.c.**

16 Pole owners should not have to rate base costs for joint use expenses that would not occur  
17 if the pole was not a joint use pole.

18 Suggested wording:

19 c. If Verizon's existing Equipment interferes with District's existing  
20 Equipment **or new equipment to be attached,** Verizon shall be responsible for  
21 the reasonable and actual cost of making the changes set out in Subsection b  
22 above.

22 **3. Sections 5.1 and 5.2.**

23  
24 The calendar year would be better in line with all District Pole Occupancy License  
25 Agreements. Rental fees would be prorated until January 1. This would also allow plenty of  
26 time to develop rates before the January 1, 2006

1 5.1 On or about **January 1** of each year, but not later than **January 31**, the  
2 District shall make a tabulation of the total number of its **jointly used poles and**  
3 **attachment space utilized**, or on which Verizon has specifically reserved space,  
4 as of the preceding **December 31** of the preceding year. **For the purposes of**  
5 **attaching Equipment thereto directly shall be considered a joint pole and**  
**subject to rental fees.** Rental fees will not be prorated for Equipment which  
occupies a joint use pole for less than the full one-year period.

6 5.2 Within sixty (60) days after the completion of the tabulation referred to in  
7 Section 5.1, the District shall invoice Verizon for the rental amount owing, as  
8 calculated in accordance with Attachment A, which is attached hereto and  
9 incorporated herein by this reference, specifying on such invoice the rental period  
10 covered. Payment of the invoiced amount shall be made within thirty (30) days of  
11 receipt of the invoice and shall constitute payment in advance for rental for the  
twelve (12) month period beginning **January 1**. Past due rental amounts shall  
bear interest at the lesser of the maximum rate permitted by applicable law or 18  
percent per annum compounded daily.

12 **4. Section 5.4.**

13 This section is not in accordance with current OAR 860-028-0140.

14  
15 5.4 If Verizon attaches Equipment to a pole without obtaining prior  
16 authorization from the District in accordance with this Agreement, the District  
17 may assess Verizon an unauthorized attachment charge per pole **in accordance**  
**with OAR 860-028-0140.** The unauthorized attachment charge shall be payable  
18 to the District within thirty (30) days after receipt of the invoice for that charge.

19 **5. Section 6.1.**

20 This section should be revised for the calendar year as indicated for section 5.1, above,  
21 and remove vestige of reciprocal joint use agreement. Revisions to the OAR's in 860-28-0110  
22 should make the automatic appeal process to the Commission unnecessary. The District is in the  
23 process of inventorying its joint use poles to determine total rental space utilized by Verizon.

24 6.1 On or about **July 1** following the effective date of this Agreement and on  
25 each **July 1** thereafter **the District may adjust its rental amount per one (1)**  
**foot joint use pole attachment rental space. Default one foot rental space will**  
26 **be calculated by completing the appropriate fields in the ANNUAL RATE**

1           **WORKSHEET (see attachment A). The District will forward a copy of the**  
2           **ANNUAL RATE WORKSHEET accompanied with all the appropriate**  
3           **supporting documents to Verizon by August 1. The adjusted rate will**  
4           **become effective the following January rental billing period.**

4           **6.     Section 9.1.a.**

5           A pole owner should not be responsible for vegetation trimming of a pole renter by  
6           absorbing the cost of pole replacement instead of vegetation trimming.

7           9.1.a If a pole larger than that which is already installed in necessary, due wholly to  
8           Verizon's requirements, Verizon shall pay to the District a sum equal to the difference  
9           between the cost, in place, of such pole and the cost, in place, of the existing pole. The  
10          District shall bear the rest of the cost erecting such pole, except as otherwise provided in  
11          Section 9.3.

11          **7.     Section 9.6.**

12          This section should be deleted. The District will not allow communication lines to be  
13          over the top of its power system. This in not acceptable industry practices. This section is a  
14          vestige of reciprocal joint use agreements where a power company is allowed to install a pole to  
15          extension on a communication owned joint use pole.

16          **8.     Section 9.9.**

17          This inspection section is unclear on when an inspection can be held and prior  
18          notification before inspection. Also it is unclear how the cost recovery for periodic or routine  
19          inspection is added to only Verizon's annual attachment space rental bill. The following is a  
20          simplified section with cost recovery for inspections to be part of the Annual Carrying Charge.  
21          If a violation is found during the course of an inspection, the sanction fees available in OAR 860-  
22          28-0140 through 860-28-0220 would suffice for any addition general administration cost to  
23          process the sanction.

24          9.9     *Inspections.* The District shall have the right to perform an Inspection of  
25          Verizon's Attachments and other Equipment upon, and in the vicinity of, the  
26          District's joint use poles at any time. The District shall recover the cost for all

1 periodic or routine Inspections in the annual rent. **A non-routine Inspection**  
2 **resulting in a sanction violation to Verizon shall have its cost recovered by**  
3 **the sanction amount as authorized by OAR 860-28-0140 through 860-28-**  
4 **0220.** Such Inspections, whether made or not, shall in no manner relieve Verizon  
of any responsibility, obligation or liability assumed under this Agreement or  
arising otherwise.

5 **9. Section 10.1.**

6 The District does not have other joint pole users change a District owned pole.

7 10.1 The expense of maintaining jointly used poles shall be borne by the  
8 District, and the District shall maintain its jointly used poles in a safe and  
9 serviceable condition, and shall, under provisions of Article XIII replace,  
10 reinforce, or repair such poles as become defective. The District shall be solely  
11 responsible for collection for damages for poles broken or damaged. The Party  
with Equipment attached to the pole shall be responsible for collecting damages to  
its own Equipment. ~~If a pole owned by the District is replaced by Verizon  
because of auto damage or storm damage, the District shall pay Verizon for  
the actual costs of such pole replacement.~~

12 **10. Section 10.2.**

13 The contract should allow electronic notification with NJUNS instead of written  
14 communications. The term “salvage value” should be changed to “remaining life value”

15 10.2 Whenever it is necessary to replace, move, reset, or relocate a jointly used  
16 pole, the District shall, before making such replacement, move, or relocation, give  
17 written notice thereof to Verizon **through NJUNS** (except in case of emergency,  
18 when oral notice shall be given and subsequently confirmed in writing **or**  
**through NJUNS**), specifying in such notice the work to be performed and the  
19 time of such proposed replacement or relocation. Verizon shall arrange to  
20 transfer such Equipment promptly to the new pole and shall notify the District  
when the such transferring has been completed. Except as specified in Paragraph  
21 10.3, in the event such transfer is not completed within thirty (30) days after the  
22 time specified in the notice given by the District, Verizon shall assume ownership  
of the original pole for all purposes at the conclusion of such thirty (30) day  
23 period, shall indemnify and hold harmless the District from all obligations,  
liabilities, damages, costs, expenses, or charges incurred in connection with such  
24 pole thereafter, and shall pay to the District the **remaining life value** of the pole,  
if any, upon delivery of a bill of sale. In the event that third parties, not subject to  
25 this agreement, have equipment attached to the District’s pole, such thirty (30)  
day period shall commence upon removal of third party attachments. Should  
26 either Party perform any work for the other Party to facilitate completion of the  
above work or in cases of emergency, such as transferring equipment, setting or  
lowering poles, digging holes, hauling poles, etc., the Party for whom work was

1 performed shall pay, upon receipt of an invoice, the actual cost of such work.

2 **11. Section 10.4.**

3 This section should be revised to give Verizon 30 days notice before setting the pole. If  
4 no communication is received from Verizon before the setting date then the District will assume  
5 that there is no pole set location problem.  
6

7 10.4 When a jointly used pole carrying underground conduit connections needs  
8 to be replaced, **the District shall provide Verizon with thirty (30) days notice**  
9 **of its intent and give Verizon an opportunity to respond with pole setting**  
10 **concerns. Thereafter, the District shall set the new pole in a location mutually**  
11 **agreed to by the Parties, or without communication from Verizon before the**  
12 **setting date, set the new pole in to a location generally adjacent to the**  
13 **previous hole.** The District shall reimburse Verizon its excess costs to modify  
14 its facilities to attach to the replacement pole **if the Districts sets the new pole**  
15 **before the notified pole setting date or in a new location that was not**  
16 **mutually agreed upon before setting date,** except where the District replaced  
17 the pole pursuant to a requirement of the requisite local governing body.

18 **12. Sections 10.5 and 10.6.**

19 The District does not perform joint pole test and treat inspections on other owners  
20 poles.  
21

22 **13. Section 12.2.**

23 This section retains vestiges of a reciprocal joint pole use agreement and not a license  
24 agreement. On District owned joint use pole and anchoring systems the District will be the sole  
25 determinor if the anchors are of sufficient capacity to allow Verizon to utilize and will assign an  
26 annual rental charge as allowed in OAR 860-028-0110(4). The District grounds all of its guys to  
the anchor and pole grounds. The requirement of insulated guys only should be removed.  
District does not expect to nor is willing to use anchor systems installed by Verizon on the  
District owned joint use poles.

17.2 When **in the sole opinion of the District** existing anchors are adequate in  
size and strength to support the equipment of both Parties, **Verizon** may attach its  
guys thereto **at an annual rental rate determined by Attachment A. The**

1 **District Guy and Anchor system are grounded and Verizon will be required**  
2 **to ground the tail of its guy to the anchor and pole ground if the guy is not**  
3 **insulated.** When **the District** anchors are not of adequate size and strength **and**  
4 **Verizon is requesting to attach its guys, the District will install the required**  
5 **anchors with adequate size for both Parties at Verizon expense.**

6  
7  
8 **14. Section 14.1.**

9 The existing 1987 Verizon-CLPUD agreement is still in effect and rental obligations of  
10 the Parties are still in force and calculated in the methodology of that agreement.

11  
12 **15. Section 15.2.**

13 Change 30 days to 45 days.

14 15.2 If either Party shall default in the performance of any work that it is  
15 obligated to do under this Agreement, the other Party may elect to do such work,  
16 and the party in default shall reimburse the other Party for the cost thereof within  
17 **forty-five (45)** days after receipt of an invoice therefor.

18 Dated this \_\_\_\_ day of March, 2005.
