PGE Reply to Staff Public Meeting Memo
October 8, 2018

PGE would like to thank Staff for the opportunity to work with stakeholders on a set of principles that work for all parties. We appreciate Staff's work in drafting these principles. These principles now reflect the guidance that PGE originally sought when directed to participate in the Oregon Department of Environmental Quality's (DEQ) Clean Fuels Program (CFP). Staff's proposed Program Design Principles and Processes reflect a balanced approach that reflects a more streamlined regulatory approach while allowing for stakeholder input. PGE supports the currently proposed Program Design Principles and Processes.

PGE thanks Staff and stakeholders for their investment of time and resources to revise the proposed Principles and Processes to reflect the comments from all stakeholders. PGE looks forward to proposing and selecting program designs and collaborating with stakeholders to create effective programs that support customers and promote transportation electrification.

Respectfully submitted on this 8th day of October, 2018
