### **Gentle People:**

**I agree with Mark McConnell. While I view the water issue important during drought conditions; my biggest concern is the sewage that will be generated by the Caldera expansion. I suspect that this rate increase will, directly or indirectly, cover the cost to improve capacity of the Sunriver facility. That will increase our current smell issue. I urge the commission to require that as part of any increase they require a new sewage facility to be constructed in Caldera.**

**Dennis Dishaw, Sunriver resident**
