Report #1 – Supported Services Offerings

1.1. Basic Local Usage Service Offerings – All ETCs

Choose either A. or B. below, as applicable:

A. ___ Basic local usage service offerings are filed under tariff with the Oregon PUC. The specific tariff references (with *company name, tariff number, section and page numbers*) for the basic local usage offerings and corresponding rates are:

1. residence:

2. business:

B. X_ Basic local usage service offerings are **not** filed under tariff with the Oregon PUC. Submit the following information for each basic service offering that includes local usage allowances (unlimited or limited): 1) plan’s name, 2) advertised public description, 3) number of local minutes included, 4) calling area included, and 5) rates and charges. Include basic offerings for both residence and business services.

	A	B	C	D	E	F	G
1	Plan Name	Advertised Public Description	Number of local minutes included	Calling area included	Rates / Charges		
2	Basic Res	ECONOMY #1	Unlimited Local Calling	Mirrors ILEC local and EAS areas	\$16.03	Includes basic line charge & EAS	Does not include LD, taxes, fees or custom features
3	Basic Bus	BASIC BUSINESS	Unlimited Local Calling	Mirrors ILEC local and EAS areas	27.95	Includes basic line charge & EAS	Does not include LD, taxes, fees or custom features
4							

1.2. Comparable Local Usage Plan – CETCs only

The carrier certifies that it offers at least one basic local usage plan that is comparable to those offered by the ILECs in its designated service area: yes X no ___

Identify which of the plans in 1.1.B above are “comparable” to the ILEC local usage offerings, and explain the basis for the comparability. These calling plans offer similar or same unlimited minutes usage plan within similar or same calling areas and EAS as the ILEC.

1.3. Supported Services Not Provided – CETCs only

Identify any supported services that were not available at designation, but were to be provided as a condition of ETC designation (e.g., toll restriction for qualifying low-income consumers, E911):
NONE

Are these services provided currently? YES no _____

If no, explain why not: _____

1.4. Equal Access Acknowledgement – CETCs only

The carrier acknowledges that it may be required to provide equal access if it is the only remaining ETC in an area: yes X no _____

Report #2 – Unfulfilled Service Requests

2.1. Unfulfilled Service Requests/Held Orders – All ETCs

Choose **either A. or B. below, as applicable:**

- A. X Service quality reports for “primary held orders over 30 days” were filed with the Oregon PUC for calendar year 2006. No additional submission is required for recertification purposes.
- B. Service quality reports for “primary held orders over 30 days” were **not** filed with the Oregon PUC for calendar year 2006. In this case, choose **one** of the following alternatives for reporting:
1. The number of customer requests for supported services that were not fulfilled during calendar year 2006: .
If greater than zero, include an attachment noting for each such request, the location (address) of the request and a description of attempts to provide service.
 2. The number of “primary held orders over 30 days” (as defined in Section 860-034-0390 of the Oregon Commission rules) for calendar year 2006: .
If greater than zero, include attachment noting for each such held order, the reason the order was held and the original commitment date.

2.2. Service Request Processing - CETCs only

Submit a description of how the carrier ensures that every request for service that cannot be immediately fulfilled is recorded and processed under the 6-step process set forth in 47 CFR Section 54.202(a)(1)(i).

A Service OrderTicket is opened on all requests for services. When an order reaches a threshold level that indicates a delay in completing the provisioning of an order in a timely manner the ticket is updated and the update field of the order is changed to mandate an update every four hours.

Additionally the Service Order status is escalated to the provisioning manager and operations manager. At the time we reach deliverability criticality for an on-net customer and there continues a delay in providing the fixed landline solutions, we implement the process to provide a cell phone for the customers use until such time as we can satisfactorily resolve the difficulty causing the delay.

If the customer is not within our service area, which is normally determined immediately at the taking of the order, a resale order is placed with the appropriate ILEC. If the ILEC fails to complete the order in a timely manner, we open a ticket with the ILEC and again offer the use of a cell phone to the customer to ensure they are not without service.

Report #3 – Evidence of Advertising for Basic Supported Services (excluding low-income/lifeline) – All ETCs

Describe how basic supported services were advertised during calendar year 2006 throughout the designated service area. List the types of media used, advertising frequencies and geographic coverage. Attach examples of actual advertisements, noting dates, specific distribution methods, and target geographical populations, sufficient to demonstrate that basic supported services and rates were advertised **throughout** the designated service area in 2006.

Throughout the course of calendar year 2006, Comspan did promote various methods of advertising within our community. We placed advertisements with the local newspaper, local radio and television broadcast companies, local sports parks, home builders associations, county fairgrounds promoting Comspan Communications.

Additionally, we made concerted efforts within the community to promote Comspan and our services as well as support the communities such as sponsoring events as Roseburg Swim Club and Regional Meet, Music on the Half Shell, The Duck Race and other various civic activities (see attached list)

See next page for sample of newspaper advertising from the Roseburg News Review. These ads ran at various dates during 2006 in varying sections of the newspaper.

Report #5 – Outage Report – All ETCs

Choose either A. or B. below, as applicable:

A. X Carrier was required to report service outages (as defined in Oregon PUC Rules at Sections 860-034-0390(9) for small telecom utilities, 860-023-0055(9) for large telecom utilities, and 860-032-0012(9) for competitive telecom providers) to the Oregon PUC during year 2006. No additional submission is required for recertification purposes.

B. _____ Carrier was *not* required to report service outages (as defined in Oregon PUC Rules at Sections 860-034-0390(9) for small telecom utilities, 860-023-0055(9) for large telecom utilities, and 860-032-0012(9) for competitive telecom providers) to the Oregon PUC during year 2006. Select #1 (wireline carriers) or #2 (wireless carriers) below.

1. _____ The number of service outages, as defined in Oregon PUC rules, that occurred during calendar year 2006 was _____.

If the number was greater than zero, attach a report that lists for each such outage the following: the date and time of onset, a brief description of the outage and its resolution, the particular services affected, the geographic areas affected, steps taken to prevent a similar future occurrence, and the number of customers affected.

2. _____ The number of service outages, as defined in FCC rules at 47 CFR Section 54.209(a)(2), that occurred during calendar year 2006 was _____.

If the number was greater than zero, attach a report that lists for each such outage the following: the date and time of onset, a brief description of the outage and its resolution, the particular services affected, the geographic areas affected, steps taken to prevent a similar future occurrence, and the number of customers affected.

Report #6 – Trouble Report – All ETCs

Choose either A. or B. below, as appropriate:

A. Trouble reports were filed with the Oregon PUC for calendar year 2006 per Oregon PUC service quality rules. No additional submission is required for recertification purposes.

B. Trouble reports were **not** filed with the Oregon PUC during calendar year 2006. In this case, choose **one** of the following alternatives for reporting:

1. The number of customer trouble reports received per 100 wireless handsets for supported services during calendar year 2006, for each company switch.

<u>Trouble Type</u>	<u>Switch A (location)</u>	<u>Switch B (location)</u>
No service	_____	_____
Network busy	_____	_____
Interruption of service	_____	_____
Poor reception	_____	_____

2. The number of customer trouble reports, as defined in Section 860-034-0390 (5) of the Oregon PUC rules, received during calendar year 2006: _____ per 100 working access lines.

Report #7 – Network Improvement Plan – CETCs Only

The following detailed information must be included in each network improvement plan. Only CETCs must file these plans for recertification purposes. CETCs that receive *only* low-income program support (no high-cost or access-related support), do not have to file network improvement plans. CETCs are strongly encouraged to use the format laid out in the attached Excel worksheets to provide information required in the outline below (taken from the UM 1217 order), rather than use some other format developed by the CETC.

7.1. Demonstration of use of support funds (other than low-income funds) received during 2006, including:

- 7.3.1.1. The amount of support funds, by type, received during the year.
- 7.3.1.2. Year-end counts of eligible lines/handsets in service for each ILEC service area as they were reported to USAC for the past December.
- 7.3.1.2. Identification of each project for which the support was used, the actual support expenditures (by amount and type) for each project, and status of project (completed or still in progress).
- 7.3.1.3. The resulting benefits to consumers (qualitative and quantitative) from each project and updates to coverage and signal strength maps.
- 7.3.1.4. Explanation of how and why actual spending of support funds differed from spending proposed in the previous network improvement plan.
- 7.3.2. Updates to network improvement plan for the current calendar year and the following year:
 - 7.3.2.1. Forecast of support amount, by type (LSS, HCL, ICLS, IAS), that the applicant expects to receive during each of the next 2 years, as well as an explanation of how the forecast was derived. We based this response on spreadsheet 7.3 on projected lines and corresponding dollars associated with fund distributions based on current known lines and fund allocation metrics. We assumed a base growth in serving areas as a flat line percentage applied monthly equaling a 10% annualized growth.
 - 7.3.2.2. Detailed information for each project that will use support funds:
 - 7.3.2.2.1. Description and purpose of the project, its physical location and the ILEC serving that area.
 - 7.3.2.2.2. The start date and completion data (by quarter).
 - 7.3.2.2.3. Amount of support money allocated to the project, in total and broken down by investment and expense types.
 - 7.3.2.2.4. The amount of company's own funds that will be used for each supported project.
 - 7.3.2.2.5. Brief explanation of why the carrier would not make these improvements without the availability of support funding.
 - 7.3.2.2.6. Quantification of resulting service improvements by type (increased coverage, signal strength, capacity, etc.), population benefited, and geographic area benefited (shown on map).
