RATE PLAN AREAS

50-STATE GSM NETWORK

Explanation of Maps, Rates, and Charges:

* These maps depict the Rate Plan Areas, comprised of the Edge Wireless GSM Network and the Partner Network, applicable to your selected Rate Plan Area. See an Edge Wireless representative for coverage detail. Actual coverage depends on system availability and system capacity, system repairs and modifications, customer's equipment, terrain, signal strength, weather and other conditions. Partner Network is based on information provided by partners and Edge Wireless does not guarantee its accuracy. Partner Network is subject to change without notice.

Activation is subject to credit approval; a deposit or valid major credit card may be required. Usage limitations may apply. If Service Limit Monitoring is required for activation you will be limited to a maximum of two wireless calling plans on your account.

Unless you are on a LocalEdge Campaign rate plan, your Rate Plan includes a predetermined allotment of service (for example, a predetermined amount of airtime, kilobytes or text messaging) to any other billing cycle.

Call Waiting, Conference Calling, Call Forwarding and Voice Mail will incur applicable airtime, roaming and wireless long distance charges. Do not apply reporting between carriers; wireless usage may be billed in a single reporting period. This usage will be charged as if used in the month billed. If a calling card or credit card is required to complete a call, different rates apply.

When using your device outside the Edge Wireless Network, some features may not work. Coverage is not available in all areas of the United States.

Fees: Reconnection - \$25 per line; Returned Check Charge - \$20; InfoEdge - 75¢ per call (while on the Edge Wireless Network) plus airtime, roaming and wireless long distance. If you have any questions, please call 811, line of charge from your wireless device (while on the Edge Wireless Network), or call 1-866-350-EDGE (3343).

Plan rates may not be available when using your device outside the United States. International wireless long distance not included. May not be combined with certain wireless offers and promotions.

Report #7 – Network Improvement Plan – CETCs Only

The following detailed information must be included in each network improvement plan. Only CETCs must file these plans for recertification purposes. CETCs that receive *only* low-income program support (no high-cost or access-related support), do not have to file network improvement plans. CETCs are strongly encouraged to use the format laid out in the attached Excel worksheets to provide information required in the outline below (taken from the UM 1217 order), rather than use some other format developed by the CETC.

- 7.1. Demonstration of use of support funds (other than low-income funds) received during 2006, including:
 - 7.3.1.1. The amount of support funds, by type, received during the year.
 - 7.3.1.2. Year-end counts of eligible lines/handsets in service for each ILEC service area as they were reported to USAC for the past December.
 - 7.3.1.2. Identification of each project for which the support was used, the actual support expenditures (by amount and type) for each project, and status of project (completed or still in progress).
 - 7.3.1.3. The resulting benefits to consumers (qualitative and quantitative) from each project and updates to coverage and signal strength maps.
 - 7.3.1.4. Explanation of how and why actual spending of support funds differed from spending proposed in the previous network improvement plan.
- 7.3.2. Updates to network improvement plan for the current calendar year and the following year:
 - 7.3.2.1. Forecast of support amount, by type (LSS, HCL, ICLS, IAS), that the applicant expects to receive during each of the next 2 years, as well as an explanation of how the forecast was derived.
 - 7.3.2.2. Detailed information for each project that will use support funds:
 - 7.3.2.2.1. Description and purpose of the project, its physical location and the ILEC serving that area.
 - 7.3.2.2.2. The start date and completion data (by quarter).
 - 7.3.2.2.3. Amount of support money allocated to the project, in total and broken down by investment and expense types.
 - 7.3.2.2.4. The amount of company's own funds that will be used for each supported project.
 - 7.3.2.2.5. Brief explanation of why the carrier would not make these improvements without the availability of support funding.
 - 7.3.2.2.6. Quantification of resulting service improvements by type (increased coverage, signal strength, capacity, etc.), population benefited, and geographic area benefited (shown on map).

Report #8 – Special Commitments/Requirements – CETCs only

Did the Oregon PUC impose any special commitments or requirements at initial designation or during the previous annual recertification process? yes ____ no X.

If yes, identify the commitments or requirements and explain if, and how, they have been met.

Report #9 – Certifications - All ETCs

9.1. IAS or ICLS Certification Copy – All ETCs Receiving IAS and/or ICLS

All ETCs receiving interstate access-related support (IAS or ICLS) must submit a copy of the certification for the use of IAS or ICLS support that was sent to USAC and the FCC in June 2007. (See Exhibit 9.1)

9.2. Certification of Use of Universal Service Funds – All ETCs receiving HCL and/or LSS (Rural ILECs and CETCs Designated in Rural ILEC Areas)

To continue receiving traditional high cost support (HCL, LSS), ETCs must submit a notarized affidavit signed by a responsible company official certifying that the carrier will use the high cost support funds only for the intended purposes. Use of the sample affidavit form displayed on the following page is recommended. (See Exhibit 9.2)

9.3. Certification of Emergency Functionality and Compliance with Service Quality and Consumer Protection Measures – All ETCs

Each ETC must submit a notarized affidavit signed by a responsible company official certifying that the carrier: 1) is able to remain functional in an emergency, and 2) is complying with all service quality and consumer protection measures in either the applicable Oregon Commission rules (for wireline carriers), the CTIA Consumer Code (for wireless carriers), or some other specific set of standards. All ETCs must submit this affidavit. A copy of an acceptable affidavit form follows the affidavit for high cost support. (See Exhibit 9.3)
