## Report #1 – Supported Services Offerings

### 1.1. Basic Local Usage Service Offerings – All ETCs

Choose either A. or B. below, as applicable:

- A.  Basic local usage service offerings are filed under tariff with the Oregon PUC. The specific tariff references (with *company name, tariff number, section and page numbers*) for the basic local usage offerings and corresponding rates are:
1. residence:

\_\_\_\_\_

2. business:

\_\_\_\_\_

- B.  Basic local usage service offerings are **not** filed under tariff with the Oregon PUC. Submit the following information for each basic service offering that includes local usage allowances (unlimited or limited): 1) plan's name, 2) advertised public description, 3) number of local minutes included, 4) calling area included, and 5) rates and charges. Include basic offerings for both residence and business services.

**Please see local rate plan brochure offered by Edge Wireless which are attached hereto as Exhibit 1.1B.**

### 1.2. Comparable Local Usage Plan – CETCs only

The carrier certifies that it offers at least one basic local usage plan that is comparable to those offered by the ILECs in its designated service area: yes  no

Identify which of the plans in 1.1.B above are “comparable” to the ILEC local usage offerings, and explain the basis for the comparability. **Edge Wireless offers LocalEdge and LocalEdge Carryover Rate Plans which offer a variety of buckets of minutes beginning at 800 included minutes. LocalEdge plans also provide a wider local area than the ILEC’s in our service area, which includes portions of Northern California and Southwestern Oregon. Most LocalEdge plans also include unlimited long distance at no additional charge. Finally, all Edge Wireless plans include unlimited toll-free service for 911 emergency calls and for 611 customer care, as well as toll-free 511 road reports to the Oregon Department of Transportation and 711 calls to TRS/TTY operators. Edge Wireless will provide 211 calls to social agencies when it is available in the Edge Wireless service area.**

**1.3. Supported Services Not Provided – CETCs only**

Identify any supported services that were not available at designation, but were to be provided as a condition of ETC designation (e.g., toll restriction for qualifying low-income consumers, E911):   N/A  

Are these services provided currently? yes  no

If no, explain why not: \_\_\_\_\_

**1.4. Equal Access Acknowledgement – CETCs only**

The carrier acknowledges that it may be required to provide equal access if it is the only remaining ETC in an area: yes  no

## **Report #7 – Network Improvement Plan – CETCs Only**

The following detailed information must be included in each network improvement plan. Only CETCs must file these plans for recertification purposes. CETCs that receive *only* low-income program support (no high-cost or access-related support), do not have to file network improvement plans. CETCs are strongly encouraged to use the format laid out in the attached Excel worksheets to provide information required in the outline below (taken from the UM 1217 order), rather than use some other format developed by the CETC.

  - 7.3.2.2.5. Brief explanation of why the carrier would not make these improvements without the availability of support funding.
