RE: UM 1710, Idaho Power Company's ("Idaho Power") Request for Cost-Effectiveness Exceptions for Specific Demand-Side Management ("DSM") Electric Measures and Programs

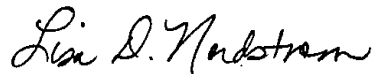

Attention Filing Center:

Per Order Nos. 94-590 and 15-200, as well as discussion between the Public Utility Commission of Oregon Staff and Idaho Power, Idaho Power is to submit a DSM cost-effectiveness exception filing each year in the month of October listing any additional measures or programs that require an exception.

After a recent review of its current programs and measures, Idaho Power has determined that there are no additional or new programs or measures requiring an exception; therefore, Idaho Power will not make an annual DSM exceptions filing in 2015.

If you have any questions regarding this filing, please contact Darlene Nemnich at (208) 388-2505 or [dnemnich@idahopower.com](mailto:dnemnich@idahopower.com).

Sincerely,

Lisa D. Nordstrom
