## BEFORE THE OREGON PUBLIC UTILITIES COMMISSION

UE 177, UE 178, UG 170, UG 171

In the Matters of OREGON PUBLIC UTILITY COMMISSION STAFF directing:

PACIFIC POWER & LIGHT, dba
PACIFICORP, (UE 177)

PORTLAND GENERAL ELECTRIC COMPANY, (UE 178)

NORTHWEST NATURAL, (UG 170)

and

AVISTA UTILITIES (UG 171)

To file tariffs establishing automatic adjustment clauses under the terms of SB 408.

OBJECTION TO PROPOSED COURSE OF ACTION BY ALJ

BY

KEN LEWIS and UTILITY REFORM PROJECT

Near close of business on January 18, 2007, undersigned counsel received an email from the ALJ in this case, which referred to a communication he received from Jason Jones on behalf of Commission Staff. The ALJ stated that Mr. Jones told them "that the parties have agreed to the resolution of all issues identified in these proceedings" and that the January 19 status conferences were cancelled.

Later, on January 19, we were notified by email from the OPUC docketing system that a letter from Jason Jones to the ALJ had been filed.<sup>1</sup> That letter most certainly does not state that "the parties have agreed to the resolution of all issues." Instead, it states that the parties who attended a non-mandatory workshop did not identify any contested issues in this proceeding. That is a very different statement.

URP and Lewis did not attend the workshops. Attendance was not mandatory. Lack of attendance did not forfeit their status as parties in the proceedings.

These dockets do present the live issue of whether the Commission is going to comply with the legal deadlines for Commission action set forth in SB 408. This issue was specifically raised by undersigned counsel at the October 17, 2006, conference call in these dockets. SB 408 § 3 requires that every public utility file a tax report with the Commission on or before October 15, 2005, and every subsequent year. The Commission is required to determine, for each covered utility, whether the difference between income taxes charged to ratepayers and income taxes paid exceeds an average of \$100,000 for the past 3 years. § 3(4). That determination must be made within 180 days of the utility's tax filing, at the

<sup>1.</sup> This letter was not properly served on the parties. The certificate of service states only that the legal secretary "served the foregoing upon all parties of record in this proceeding by delivering a copy by electronic mail." Mere electronic service in this docket is improper. When URP and Lewis on December 28, 2005, moved to deem electronic service sufficient, ALJ Grant denied that motion, because of his conclusion that "past history has shown electronic mail to be an insufficient form of service."

very latest. Then, SB 408 requires the Commission to "require the utility to establish an automatic adjustment clause" to account for the difference between tax charges to ratepayers and tax payments by the utility within a further 60 days, at the latest.

Simple math shows that the Commission has not complied with the statutory deadlines. SB 408 required that the Commission make the \$100,000 threshold determinations by April 17, 2006 (assuming a starting date of Monday, October 17, 2005). It also directed the Commission to require the qualifying utilities to establish automatic adjustment clauses by June 16, 2006. The Commission has taken neither of these mandatory acts.

These dockets offer the Commission an opportunity to mitigate its failure to comply with the terms of SB 408.

. \_ .

Dated: January 24, 2007

Respectfully Submitted,

DANIEL W. MEEK
