SUBJECT: UA 109-Central Lincoln People's Utility District application for allocation of exclusively served territory.

On November 3, 2006, Central Lincoln People's Utility District (CLPUD) filed an application requesting two parcel areas be allocated to it as exclusively served territory in which CLPUD already serves no more than a dozen customers and one of its own microwave hilltop tower sites.

Based on my review of CLPUD's application, I find that both parcels described in the application are located in unallocated territory and CLPUD is currently serving customers in both areas. Therefore, CLPUD will best facilitate the provision of economical, safe, efficient, and reliable service to this unallocated territory. The approval of this application will enable CLPUD to provide exclusive electric utility service within the area-preventing the duplication of facilities. I find the transfer of unserved territory acceptable and not contrary to the public interest.
