UE 198

In the Matter of)	
)	
PORTLAND GENERAL ELECTRIC)	PROPOSED BUDGET FOR
COMPANY)	ISSUE FUND GRANT OF THE
)	INDUSTRIAL CUSTOMERS OF
Request for Net Variable Power Cost)	NORTHWEST UTILITIES
Revision)	

Pursuant to Section 6.3 of the First Amended and Restated Intervenor Funding Agreement (“IFA”) approved by the Oregon Public Utility Commission (Commission) by Order No. 07-564 (December 19, 2007), the Industrial Customers of Northwest Utilities (“ICNU”) files this Proposed Budget in UE 198 (the “Proceeding”) for an Issue Fund Grant in the amount of \$33,680. ICNU will bear all its costs in this proceeding that exceed \$33,680 in order to leave additional Issue Funds available for other parties and future proceedings. ICNU proposes that this grant be funded from the Portland General Electric Company (“PGE”) Issue Fund Account. ICNU respectfully requests that the Commission act on this Proposed Budget within fourteen days of receipt, as provided in Section 6.4 of the IFA. The following information is provided in accordance with Section 6.3 of the IFA:

(1) Statement of the work to be performed by ICNU for which ICNU is seeking the Issue Fund Grant:

ICNU has retained Davison Van Cleve, P.C. to represent ICNU in UE 198. The purpose of UE 198 is to establish PGE’s net variable power costs for 2009. The IFA defines an Eligible Proceeding as “any Commission proceeding that directly affects one or more of the Participating Public Utilities” IFA, Section 1(c). UE 198 directly affects PGE, which falls

under the definition of “Participating Public Utility” in Section 1(k) of the IFA. Therefore, UE 198 is an Eligible Proceeding and an Issue Fund Grant may be made for this proceeding under Section 6.1 of the IFA.

ICNU will attend all clarifying sessions, workshops, settlement conferences, public meetings, oral presentations and hearings in UE 198. ICNU plans to conduct extensive discovery in this proceeding.

(2) Description of the areas to be investigated by ICNU:

ICNU intends to investigate PGE’s net variable power costs in this proceeding, including whether the assumptions used in PGE’s Monet model are reasonable.

(3) Description of the particular customer class or classes that will benefit from the intervenor’s participation:

ICNU’s participation will directly benefit industrial customers, as well as all other large non-residential customers who purchase service from PGE. In addition, ICNU has participated in numerous previous rate cases of PGE. Thus, ICNU possesses significant interest and expertise with respect to this proceeding.

(4) Identification of the specific Fund account from which ICNU is seeking the Issue Fund Grant:

ICNU is seeking an Issue Fund Grant in the amount of \$33,680. ICNU will bear the cost of its participation to the extent that its costs exceed the amount requested. ICNU proposes that the grant amount be allocated from the PGE Issue Fund Account established under IFA Section 4.2.3. ICNU has been informed that the amount available in the PGE Issue Fund Account is \$214,429.28.

(5) Budget showing estimated attorney and consultant fees and expert witness fees:

Attached as Exhibit A is ICNU's proposed budget in UE 198.

(6) Matching Funds

ICNU represents that it will use matching funds in the form of either in-house resources or outside funding to account for or pay at least 20% of the Eligible Expenses for which ICNU is seeking an Issue Fund Grant. As such, ICNU seeks an issue fund grant for 80% of its proposed budget in this proceeding.

Basis for Request

ICNU respectfully requests that the Commission grant its request for this Issue Fund Grant in the amount of \$33,680 based on the following considerations:

1. In this proceeding and UE 197, PGE proposes to increase rates by approximately \$145.9 million, with an effective date of January 1, 2009. If approved, the \$145.9 million increase would represent an 8.9% overall increase in rates. The rate increase is expected to be 9.1% for Schedule 89-S customers, 9.9% for Schedule 89-P customers, and 10.8% for Schedule 89-T customers.

2. PGE identifies three major categories of cost increases that each account for about one-third of the requested rate increase: 1) fuel and purchased power costs; 2) operations and maintenance and administrative and general costs; and 3) increased investment in existing power plants and an increase in capital costs. PGE also is requesting to increase its authorized return on equity ("ROE") from 10.1% to 10.75%. PGE states that without the rate increase, its ROE will only be 3.4%. PGE's rate request is not based on the addition of new generating resources.

3. ICNU represents the interests of industrial customers and has significant experience participating in Commission proceedings involving PGE. ICNU's participation will benefit all PGE industrial and large non-residential customers. In addition, ICNU will submit expert witness testimony and briefs as called for by the procedural schedule in this Docket.

4. ICNU has been pre-certified under Section 5.2(b)(2) of the IFA and OAR § 860-012-0100(3) as eligible to receive an Issue Fund Grant by Order No. 03-502, which was entered on August 21, 2003.

5. ICNU has been actively participating in UE 196, a case related to recovery of Boardman outage costs. UE 196 has become much more complex than originally contemplated. The schedule has been changed twice. ICNU did not request an issue fund grant in UE 196. ICNU expects to fully use its 2008 PGE Matching Fund Grant for costs associated with UE 196.

Therefore, ICNU respectfully requests that the Commission issue an order granting an Issue Fund Grant in the amount specified above.

Dated this 28th day of May, 2008.

Respectfully submitted,

DAVISON VAN CLEVE, P.C.
