RE: UE 201 Power Cost Adjustment Mechanism and the Colstrip Tax and Royalty Payment Adjustment

In PGE's Direct Testimony of UE 201, we identified potential power costs associated with royalties and taxes related to coal transportation for the Colstrip generating plant. PGE estimated the applicable accrual for 2007 royalties and taxes to be approximately \$275,000 and we incorporated this amount into our 2007 actual NVPC. In addition, PGE proposed to true up the 2007 Power Cost Variance when an amount has been determined.

Based on a settlement with the Montana Department of Revenue and a settlement framework with the US Department of the Interior, PGE has revised the 2007 power cost amount for the Colstrip expense to approximately \$99,000. The impact of this adjustment is an increase in the 2007 PCAM credit by approximately \$158,400. The revised 2007 Power Cost Adjustment Mechanism credit is now \$16.692 million.

If you have any questions or require further information, please contact me at (503) 464-7580.

Sincerely,

A handwritten signature in black ink that reads "Patrick G. Hager". The signature is written in a cursive style with a horizontal line under the name.
