RE: 2011 Minimum Filing Requirements (Docket No. UE 215)

In PGE's last general rate case, Docket No. UE 197/198, parties agreed to Minimum Filing Requirements (MFRs) for Net Variable Power Costs (NVPC). The MFRs define the documents PGE will provide in conjunction with the NVPC portion of PGE's initial (direct case) and update filings of its general rate case and/or Annual Power Cost Update proceedings.

Enclosed are the MFRs for PGE's 2011 general rate case in Docket No. UE 215. The MFRs include "supporting documents and work papers" for the following: Forward curve inputs, load inputs, thermal plant inputs, hydro inputs, electric and gas contract inputs, wheeling inputs, wind power inputs, and historical operating data.

Attachment 1 is CDs containing the ten volumes of MFRs. Attachment 1 is confidential and subject to the Protective Order issued in UE 215 (Order No. 10-056).

If you have any questions, please contact me at (503) 464-7021 or Chris Liddle at (503) 464-7458.

Sincerely,
