**RE: July 30, 2010 Monet Update (Docket No. UE 215)**

Enclosed is PGE's July 30, 2010, MONET update for Docket UE 215. This update includes contracts and electric and gas forward curves as of June 30, 2010. Net Variable Power Costs total \$730.5 million, a decrease of approximately \$9.7 million from the April 1, 2010 update filing, primarily due to changes stipulated to by parties including reclassification of certain items from NVPC to O&M or A&G, a reduction to the BPA wind integration tariff rate, and certain scheduling changes.

PGE is in the process of finalizing cost estimates related to the turbine upgrade at the Coyote Springs plant and will be including costs for firm gas transportation in the September 20, 2010 update filing. PGE will provide supporting documentation at that time.

Attachment 1 is a CD containing the required Minimum Filing Requirements (MFRs). Attachment 1 is confidential and subject to the Protective Order issued in UE 215 (Order No. 10-056.)

If you have any questions, please contact me at (503) 464-7021 or Chris Liddle at (503) 464-7458.

Sincerely,

Randall Dahlgren  
Director, Regulatory Policy & Affairs
