**RE: UE 400—2023 Transition Adjustment Mechanism  
PacifiCorp's List of Corrections or Omissions**

PacifiCorp d/b/a Pacific Power provides for filing a summary of all identified corrections or omissions to net power costs since the company's March 1, 2022 initial filing in this docket. This submission is made pursuant to Section A(4) of the Transition Adjustment Mechanism (TAM) Guidelines, adopted by the Commission in Order No. 09-274.

**Corrections:**

PacifiCorp identified an error on the UT Solar Adjustment tab in the Net Power Cost report that did not capture the full solar generation of certain resources. This will decrease net power costs by \$11.04 million on a total-company basis.

The Company has also identified a correction to the Aurora input for the regulating reserve requirement values. This is a technical correction that is limited to the modeling input, but does not impact the proposed methodology discussed in PacifiCorp's direct testimony. This correction will be quantified in PacifiCorp's reply testimony.

Please direct informal correspondence and questions regarding this filing to Cathie Allen at (503) 813-5934.

Sincerely,

Shelley McCoy  
Director, Regulation
