Eligibility is reviewed periodically. Your benefits will be discontinued when you no longer meet the eligibility requirements or when proof of eligibility is not received. Customers who are no longer eligible for Lifeline benefits must notify their service provider.

- **Other Useful information**

There are other options that can help you save money, including free toll blocking, waived deposit with toll

blocking and voluntary limit on long distance calling (toll control).

Link Up helps households reduce the cost of initiating telephone service. This program pays some of the cost of connecting local telephone service to your home or activating wireless phone service. However, Link Up does not cover the cost of wiring inside your home.

- **How much will I save?**
Link Up will pay 50% of your installation charges for total discount of \$9.88. (Maximum benefit \$30.00) An additional discount may apply to residents of federally recognized tribal lands.
- **How do I know if I am eligible?**
If you qualify for Lifeline, you also qualify for Link Up.
- **Are there any restrictions?**
You must provide proof of eligibility before telephone service can be activated. Link Up can only be used for the charges for activating a primary telephone line or moving existing service to a new address. Charges related to wiring and telephone jacks within your home and wireless handsets are not eligible for the Link Up discount.
- **How do I apply?**
To apply for Link Up you will follow the same application process as Lifeline and the same proof of eligibility as Lifeline.

Being a Lifeline or Link Up customer does not protect you from being disconnected if you fail to pay your telephone bill.

Lifeline and Link Up discounts cannot be applied to an outstanding balance owed to your phone company.

Lifeline can only be applied to one wireless OR wireline telephone per household.
