1. residence:

1.2. Comparable Local Usage Plan – CETCs only

The carrier certifies that it offers at least one basic local usage plan that is comparable to those offered by the ILECs in its designated service area: yes no _____

Identify which of the plans in 1.1.B above are “comparable” to the ILEC local usage offerings, and explain the basis for the comparability.

AT&T Mobility offers calling plans that provide customers local usage that is comparable to the incumbent LECs when taking into account all of the additional benefits of AT&T Mobility’s current service offerings, include the inherent benefit of mobility. AT&T Mobility currently offers post-paid calling plans that include nationwide long distance calling and roaming within the United States. AT&T Mobility also offers an Unlimited Rate Plan which offers unlimited calling within the United States. Most of AT&T Mobility’s currently offered post-paid calling plans include unlimited nights and weekend minutes, while some of the lower priced plans offer generous allotments of night and weekend minutes. Most currently offered post-paid calling plans offer unlimited mobile calling between AT&T Mobility customers, and allow the customer to Rollover unused minutes for use in subsequent months. Further, AT&T Mobility’s calling plans currently offer all of the following features at no extra charge: Voice Mail, Caller ID, Call Forwarding, Call Waiting, Detailed Billing, and Three-Way Calling. In addition to these

calling plans, AT&T Mobility also offers an option for prepaid or pay-as-you-go wireless service.

1.3. Supported Services Not Provided – CETCs only

Identify any supported services that were not available at designation, but were to be provided as a condition of ETC designation (e.g., toll restriction for qualifying low-income consumers, E911): _____

If no, explain why not: _____

1.4. Equal Access Acknowledgement – CETCs only

The carrier acknowledges that it may be required to provide equal access if it is the only remaining ETC in an area: yes X no _____

¹ AT&T Mobility's calling plans include calls to anywhere in the United States and as such the calling plan does not make a distinction between "local" and long distance calls. Toll restriction, therefore, is not necessary.

CETCs are strongly encouraged to use the template in the attached Excel worksheets for their network improvement plans. This template incorporates all the items of information required by the order.

AT&T Mobility is providing the information required in Report 7 in the attached Confidential Exhibit 7. AT&T Mobility has also prioritized the sites in case there are changes to the federal universal service support. The requested maps are also provided in Confidential Exhibit 7.
