Re: Docket UM 1829: Blue Marmot LLCs vs Portland General Electric Company

Attention Filing Center:

As a supplement to the Parties' Proposed Joint Schedule filed on September 26, 2018, Portland General Electric Company (PGE) and the Blue Marmot LLCs (Blue Marmot) jointly submit this Scope of Supplemental Testimony.

The subject matter of PGE's supplemental testimony is the new study that was included in Keegan Moyer's sur-surrebuttal testimony, presented in Blue Marmot/500, Moyer/30-37 (and other ancillary references to the new study found throughout the sur-surrebuttal testimony). PGE plans to present a critique of that study, including the data sources and key assumptions, and PGE will explain how corrections and adjustments to Mr. Moyer's new analysis, including changes to inputs and key assumptions may produce a different outcome. PGE's supplemental testimony will not include any new analysis or address any matters not specifically raised in Keegan Moyer's sur-surrebuttal testimony.

Blue Marmot's supplemental testimony will be limited to responding to the information provided in PGE's additional round of testimony, which could include a critique of PGE's analysis, including the data sources and key assumptions, and may show how corrections and adjustments may produce a different outcome. Blue Marmots' supplemental testimony will not include any new analysis or address any matters not specifically raised in PGE's supplemental testimony.

Please contact this office with any questions.

Sincerely,

Lisa Rackner
