Subject: UM 1854 - Report to ALJ on Schedule

Judge Grant, in the Prehearing Conference Memorandum issued July 13, 2017 you encouraged parties to confer on a schedule to address PGE's request for permanent relief, and to notify you by August 7 whether the parties were able to reach consensus on a schedule or if another prehearing conference is necessary. On August 4, 2017, PGE circulated a proposed schedule to parties and, alternatively, asked the parties whether they would like PGE to request additional time to confer regarding a schedule. ICNU informed PGE that it would like to defer a decision on the schedule until after the Commission issues a decision on PGE's IRP. PGE did not receive a response from any of the other parties. PGE therefore believes that another prehearing conference should be scheduled.
