Staff appreciates the CSP Program Administrator, PacifiCorp, Portland General Electric, and CSP Project Managers contributing to the data provided in the monthly report. Staff looks forward to this and future reports providing all parties with timely and updated information for tracking CSP project progress. The reports also reflect Staff's focus on identifying and mitigating avoidable delays, increasing transparency and accountability, and improving Program performance.

Staff intends to host a public workshop in June, following the publication of the next monthly report in May. At the workshop Staff will seek feedback from stakeholders and utilities on the first two reports and for improving the value of future reports.
