Re: UM 1953 PGE Green Energy Affinity Rider (GEAR), Schedule 55

PGE writes this letter to notify the Commission, Staff, and stakeholders that PGE has received a customer letter of intent (from Customer #1 in queue) to participate in the Customer Supply Option (CSO) of the GEAR. There are 140 MW of available reserved capacity in the CSO and Customer #1 intends to subscribe to the full remaining 140 MW. Thus, assuming that Customer #1 fulfills the terms of the letter of intent and enrolls in the program, Phase I of the Green Tariff program is full and no capacity remains.

PGE looks forward to working with stakeholders, Staff and the Commission to expand the program in Phase II to meet further customer interest. PGE has posted this information to its website as well, so that interested customers and project developers may know the program status.

If you have any questions, please contact Josh Halley at josh.halley@pgn.com. Please direct all formal correspondence and requests to the following email address pge.opuc.filings@pgn.com

Sincerely,

\s\ Robert Macfarlane
