

Proposed Docket Schedule

January 5, 2022

UM 2035 – Idaho Power Transportation Electrification Plan

Idaho Power filed a draft of the Company’s [second](#) Transportation Electrification Plan (TE Plan) on December 23, 2022. Below is Staff’s proposed schedule for public review of the utility’s TE Plan. At a prehearing conference tomorrow, January 6, 2023, at 1:30 pm PST, Staff will gather feedback on this schedule. The next event following the establishment of this schedule is a workshop hosted by Staff where Idaho Power will present the Company’s TE Plan to stakeholders and answer questions. The workshop will be followed by one round of written comments. After the public review of Idaho Power’s TE Plan, the Commission will consider whether to accept the plan during two public meetings. The first public meeting will be a public hearing where the Commission will receive public comments. The second will be a work session where the Commission will deliberate on whether to accept the TE Plan.
