Dear UM 2178 / Natural Gas Fact Finding Stakeholders,

For a variety of reasons, Staff has had to make modifications to the timing of activities and deliverables associated with UM 2178. Per the email I sent in December, I am reaching out to provide a very high-level update on the schedule for UM 2178. We hope this helps stakeholders prepare for engagement as activities pick back up again in the first half of 2022.

- Q1 – Draft Report Released
- Q2 – Stakeholder engagement and Final Report posting

At this point, we are unable to provide more detail than this. Thank you for your understanding and if you have questions or concerns, please feel free to contact me directly.

Best,  
Kim Herb
