Re: Natural Gas Dockets

Dear UM 2178 stakeholders,

In an effort to facilitate continued engagement, Staff wanted to take the opportunity to point you to some of the current natural gas-related dockets that are under consideration at the PUC. You can stay up to speed on any of these dockets by emailing a request to puc.hearings@puc.oregon.gov to be added to the service list – just include the docket number(s) of interest in your email. There are additional procedures that need to be followed to petition to intervene and to access any confidential information in the dockets. If you have any questions about participating in these dockets, the PUC's administrative hearing division staff are happy to answer your questions via the same email provided above.

Rate Cases

- **UG 433** – Avista General Rate Case
- **UG 435** – Northwest Natural General Rate Case

Some general information on rate cases can be found on the PUC website:

<https://www.oregon.gov/puc/utilities/Pages/Rates-Tariffs.aspx>

Other Dockets

- **UM 2214** – Northwest Natural Update of Depreciation Study
- UI 451** – Northwest Natural Lexington Renewables Project – Renewable Natural Gas (RNG)
Request for Approval of an Affiliated Interest Agreement

Staff hopes this helps facilitate engagement – please feel free to reach out if you have questions.

Best,
Kim Herb
