# Today's meeting agreements

**Ask questions today, provide comment later.** Staff asks that participants focus on *asking questions* about Part Two filings today, and *provide comment* on the Part Two filings through the formal request-for-comment issued in the August 30 docket announcement\*.

**Practice the equity of time.** If you are speaking a lot, consider asking someone else's thoughts. If you haven't spoken, find a way to contribute. If needed, we'll be deliberate about calling on individuals so that we can balance who gets to ask their questions.

**Treat others with respect.** Consider the impacts of your words and actions on others. Examine and critique systems, not people.

**Accept other's lived experiences.** What someone says they experienced is what they experienced. No singular experience is representative of everyone's experience.

**Use a bike rack when needed.** Strive to stay on topic and use a bike rack to identify topics to come back to when helpful.

**Come ready to learn.** Question your assumptions. Make sure you understand others' perspectives so you can contribute to the discussion.
