RE: UE 228 General Protective Order

To Whom It May Concern:

In response to paragraph 10(e) of the General Protective Order approved in Docket UE 228, I offer the following. Regulatory & Cogeneration Services, Inc. (RCS) has been, and will continue to be, a utility rate and economic consulting firm engaged in providing electric and gas utility-related consulting services to industrial and institutional corporations in the United States. A good portion of our typical consulting effort has been, and will continue to be, appearing in state and federal regulatory proceedings on behalf of clients. However, our services have also included advising clients on strategies for selling, procuring and evaluating alternative providers of electrical power or gas supplies. As RCS has done for many years, our role is to assist clients in formulating and successfully implementing energy strategies in a collegial effort. At this time, it is my understanding that the firm has no intention of changing or redirecting our business focus.

Attached is a list of past and present clients of RCS. At this time, we would expect any future clients to be in a business similar to those on the attached sheet. In addition to the attached list, I, Michael Deen, was recently employed as an analyst by the Public Power Council (PPC). PPC is a non-profit trade association of consumer-owned utilities which buy wholesale power and transmission services from the Bonneville Power Administration (BPA). Prior to joining RCS, I represented PPC as in various rate adjustment proceedings and other BPA processes.

Sincerely,

Michael Deen
Regulatory & Cogeneration Services, Inc.
