

1 **BEFORE THE PUBLIC UTILITY COMMISSION**  
2 **OF OREGON**

3 **UT 125**

4 In the Matter of

5 QWEST CORPORATION, fka  
6 U S WEST COMMUNICATIONS, INC.,

7 Application for Increase in Revenues.

**QWEST CORPORATION'S REQUEST  
TO SUPPLEMENT RECORD**

8 Pursuant to the Prehearing Conference Memorandum issued November 30, 2023, Qwest  
9 Corporation respectfully submits its request for supplementation of the record.

10 Filed herewith as Exhibit 1 is a copy of the docket sheet for UT 125. Qwest has  
11 highlighted certain items in yellow that it requests be included in the record for the remand  
12 proceeding. Most of these documents pertain to the establishment of payphone service rates in  
13 the 1999-2002 timeframe, and some pertain to the Refund Orders issued in this docket in 2000.  
14 These documents are relevant to the Commission's consideration of whether Qwest's rates  
15 complied with the new services test and whether Qwest complied with the Refund Orders.

16 The highlighted documents are not available on the Commission's website as the  
17 Commission was not utilizing electronic filing at that time, nor has Qwest been able to obtain  
18 them. Thus, Qwest is not able to attach these documents to this request as stated in the  
19 Prehearing Conference Memorandum. Qwest respectfully requests that the Commission make  
20 these documents available to the parties for use in this proceeding. Qwest notes that some or all  
21 of the documents may be included in the record that the Commission transmitted to the court on  
22 or about June 12, 2002 (entry also highlighted in Exhibit 1), in connection with a prior appeal of  
23 the Commission's rate-setting order.

24 Qwest also submits as Exhibit 2 the docket sheet from a related proceeding, DR 26/UC  
25 600, and requests that the highlighted documents be included in the record. These documents are  
26 relevant to whether the law requires the Commission to issue refunds.

1 Qwest conferred with the other parties about this request. Commission Staff does not  
2 object to including this material in the record. NPCC stated it does not object at this time, but  
3 wants to reserve its right to object at a later date. Thus, we were not able to present a stipulation.

4 Qwest understands from the November 8, 2023 prehearing conference and the November  
5 30, 2023 Prehearing Conference Memorandum that the current process is intended to identify  
6 and make available for use portions of the UT 125 record that are not available in electronic form  
7 on the Commission's website, but not to finally establish the complete record for the  
8 Commission's consideration in the remand proceeding. The Commission considered other  
9 documents from this and other Commission proceedings, FCC proceedings, and court  
10 proceedings in denying NPCC's motions in Order 17-473 that were not included in the record  
11 transmitted to the Court of Appeals in 2018. Such other documents continue to be relevant and  
12 Qwest intends to rely on them in this proceeding so the Commission may base its decision on all  
13 relevant evidence.
