3. If the petitioner is an organization, the number of members in and the purposes of the organization:

STOP B2H Coalition

WHO: The “Stop B2H Coalition” is a growing alliance of organizations and public officials that are opposed to the 305 mile Boardman to Hemingway 500kv Transmission line.

MISSION: We are working to stop the approval and construction of an unneeded 305 mile transmission line through Eastern Oregon and Western Idaho, thereby: protecting environmental, historical and cultural resources; preventing degradation of agricultural and land assets; promoting energy conservation; and supporting the rapid development of new technologies in energy generation, storage and distribution throughout the western region and the USA.

The Coalition is working to:

- 1) Question PacifiCorps’s 2021 Integrated Resource Plan (IRP) for the construction of the Boardman to Hemingway transmission line;
- 2) Prevent negative environmental, cultural, health-safety, environmental justice, and social and economic impacts to our region. This includes minimizing road construction, noise, protecting wildlife, timber, ranching and farming resources, as well as, scenic, historical and recreational viewsheds which will be impacted by the construction and maintenance of the access roads, towers, and lines.
- 3) Promote the rapid deployment of new technologies, renewable energy, and non wires solutions to make the grid more secure and responsive to changing customer needs.

4. The nature and extent of the Petitioner’s interest in the proceeding is:

The STOP B2H Coalition has a substantial interest in this proceeding because decisions of the commission on the 2021 IRP will impact the quality of life in the Eastern Oregon counties negatively influenced by this transmission infrastructure.

5. The issues the Petitioner intends to raise at the proceeding are:

- 1) PacifiCorp has not demonstrated the need for the B2H transmission line. However their partner, Idaho Power, is moving forward with the siting of the B2H through the ODOE/EFSC siting process.
- 2) There is a lack of inter-relationship between PacifiCorp and Idaho Powers IRP’s to construct B2H.
- 3) Given the transformation of the energy utility market we believe PacifiCorp has not demonstrated best practices.

6. The special knowledge or expertise of the Petitioner that would assist the Commission in resolving the issues in the proceeding is:

The STOP B2H coalition has participated in Idaho Power’s 2017 and 2019 IRP’s as intervenors in both the Idaho and Oregon dockets. STOP is currently involved in Idaho

Power 2021 IRP process attending monthly IRP meetings on-line and will seek to intervene again in the Idaho and Oregon dockets when the IRP is submitted. By participating in PacifiCorps 2021 IRP we can monitor and comment on of both companies' 2021 IRP's regarding the B2H.

7. Based on the information provided above in accordance with the Commission's rules of procedure, I request to participate in this proceeding as an intervenor. I or the organization that I represent will not unreasonably broaden the issues, burden the record, or unreasonably delay the proceeding. OAR 860-001-0300.
