C. NWECC is a private, non-profit alliance of more than 100 consumer and good-government groups, low-income agencies and advocacy organizations, environmental organizations and progressive utilities. For the past 25 years, NWECC has promoted equity in ratemaking and advocated for cost-effective conservation and renewable energy resources, accounting for environmental costs in resource choices, ensuring fair access to NW resources, and actively engaging the public in energy decision making. NWECC's membership is from the four Northwest states, California and British Columbia.

D. Besides representing many ratepayers in Oregon, NWECC has special interests in these proceedings in ensuring that PacifiCorp's resource acquisitions best serve the interests of ratepayers, especially those with limited incomes, and contribute to improvements in the environment. NWECC was actively involved in the Company's IRP.

NWECC's involvement will not unreasonably broaden the issues, burden the record nor delay the proceeding. We offer this process expertise in the area of resource acquisition. For the reasons stated above, NWECC respectfully requests that to be allowed to intervene in this matter.

Dated this 16th day of August, 2006

Respectfully submitted,

Steven Weiss,
Senior Policy Associate,
NW Energy Coalition
