The Coalition was established in 2009, and is comprised of nearly forty members who own and operate over fifty qualifying facilities or are attempting to develop new projects (“QFs”) in Oregon, Idaho, Washington, Utah, Montana and Wyoming. The Commission’s investigation into PURPA implementation will directly impact the ability, rates, terms, and conditions of any power sales to Oregon electric utilities.

The Coalition has participated in numerous regulatory proceedings intended to promote competitive markets, PURPA, renewable energy, and diversity of generation ownership, including all the recent major proceedings regarding qualifying facility contract and rate eligibility. The Coalition’s intervention will assist the Commission in resolving the issues and will not unreasonably broaden the issues, burden the record, or delay this proceeding. Finally, the Coalition’s interest is not adequately represented by any other party in this proceeding.

WHEREFORE, the Coalition respectfully requests that the Commission grant its petition to intervene with full party status in this proceeding and to appear and participate in all matters as may be necessary and appropriate; and to present evidence, call and examine witnesses, cross-examine witnesses, present argument, and to otherwise fully participate in the proceedings.

Dated this 7th day of June 2019.

Respectfully submitted,

Irion Sanger
