NewSun is seeking intervention on its own behalf and not as a member of a trade group or other organization.

NewSun has special knowledge or expertise that may assist the Commission in resolving the issues in this proceeding. NewSun has experience with renewable and clean energy standards, energy and capacity values, interconnection, transmission, and resource planning. The outcome of this docket could have a direct impact on NewSun's business. NewSun has participated in other regulatory dockets before the Commission including regarding integrated resource planning, requests for proposals, Public Utility Regulatory Policies Act implementation, avoided costs, interconnection, capacity valuation and resource adequacy. NewSun has an interest in resource procurement and ensuring that PacifiCorp's procurement process is handled fairly regarding all sources of generation. NewSun anticipates participating to the extent necessary to ensure its interests are protected. NewSun's interests are not adequately represented by any other party, and its participation will assist the Commission in resolving issues.

Based on the information provided above in compliance with the Commission's rules of procedures, NewSun requests approval to participate in these proceedings as an intervenor. NewSun's participation in this docket will not unreasonably broaden the issues, burden the record, or unreasonably delay this proceeding.
