Re: UM 1514 Automated Demand Response – Interim Report

In accordance with the timeline PGE established for its Automated Demand Response pilot (ADR or Energy Partner) and the OPUC Staff's request for interim reporting, attached is PGE's interim report for the Winter 2016 operating season. PGE's primary goal for the season was to continue to expand program participation, and call demand response events as appropriate. The following is a summary of ADR's sixth operating season:

- Due to the mild weather, PGE called only three events during the winter 2016 season.
- As of February 29, 2016, EnerNOC had signed contracts from 36 customers representing 56 sites enrolled in the pilot and achieved 11.2 MW of contracted capacity.
- PGE and EnerNOC continue to expand efforts to sign customers to the pilot and we estimate the summer 2016 capacity to be approximately 14 MW.

The attached report is confidential and subject to Protective Order No. 11-029. If you have any questions, please call me at (503) 464-7623.

Sincerely,

A handwritten signature in black ink that reads "Alex Tooman". The signature is written in a cursive, slightly slanted style.
