RE: PGE UE 332 / Advice No. 17-15, Schedule 54 Large Nonresidential Renewable Energy Certificates Riders Annual Reporting

Portland General Electric Company (PGE) hereby submits in compliance with OPUC Order No. 17-389, an annual report regarding customer participation levels in each of Schedule 54's program options, with additional details provided concerning the specified resource program.

As a competitive operation as it is defined in Oregon Administrative Rule 860-038-005(8), Schedule 54 was originally approved in Advice Filing 02-12, with the Specified Resource offering approved in Advice Filing 17-15. Even though it is a competitive operation, PGE has filed as a tariffed Schedule as Staff of the Public Utility Commission of Oregon, at the time, interpreted Oregon Revised Statute 757.205 to require that all regulated and competitive services be tariffed.

Should you have any questions or comments regarding this report, please contact Jacob Goodspeed at (503) 464-7806.

Please direct all formal correspondence and requests to the following email address: pge.opuc.filings@pgn.com.

Sincerely,

A handwritten signature in blue ink, appearing to read "Karla Wenzel", is written over a light blue circular stamp.
