**RE: PGE's UM 1452 Compliance Filing for OAR 860-084-0430
Oregon Solar Payment Option Pilot Program, Bi-Annual Report**

Enclosed is PGE's bi-annual compliance filing for the Oregon Solar Payment Option Pilot Program. This filing is submitted in compliance with OAR 860-084-0430. PGE provides the raw data collected from pilot program participants who have signed agreements with PGE from February 1, 2014 through July 31, 2014. These signed agreements allow PGE to provide customer information to the Oregon Department of Energy (ODOE) and the Energy Trust of Oregon (ETO).

Below PGE provides pilot program enrollment data from the most recent window, which was April 1, 2014. In addition to the April 2014 window, summary enrollment results for the pilot to date are provided. PGE acknowledges that this filing does not provide historical enrollment results by window as it has in previous filings. Upon request, PGE will provide the historical results by window as have been submitted in prior reports.

PGE notes that per Order 14-025, there is no autumn 2014 enrollment window but there is a planned "clean-up" window May 1, 2015. The determination of price for that window's enrollment has not yet been made. PGE requests that the OPUC schedule a workshop to determine what mechanism should be used to set the prices.

July 2010 – July 2014 Summary Reservation Period Results

As the initial nine enrollment windows are concluded in this pilot, PGE provides summary pilot results of the number of systems in progress, operation and withdrawn as well as the associated capacity amounts. The withdrawn/expired results represent the total number of projects and capacity that have dropped out or expired past one of the program deadlines since the beginning of the pilot. The majority of the capacity was rolled over to subsequent enrollment windows.
